

A catalog of the types of Chrysomelidae *sensu lato* (Insecta, Coleoptera, Polyphaga) deposited in the Museo Argentino de Ciencias Naturales, Buenos Aires

Axel O. BACHMANN¹ & Nora CABRERA²

¹Entomology Division, Museo Argentino de Ciencias Naturales. e-mail: bachmann^Qbg.fcen.uba.ar.

²Entomology Division, Museo de La Plata. e-mail: ncabrera^Qmuseo.fcnym.unlp.edu.ar

Abstract: The type specimens (all current categories) of Chrysomelidae *s.l.* deposited in this Museum are listed; 125 names are recorded, 85 of them (68 percent) are represented here by name-bearing types ('primary' types), five of them dubious. The family is taken in its broadest sense, including the Bruchinae, Hispinae (along with the former Cassidinae), and other groups sometimes considered as separate families. The specific and subspecific names were alphabetically filed, followed by the generic ones as they were spelled in the original publication, or the generic and specific names in the case of subspecies and varieties. Later combinations and/or current *binomina* are mentioned insofar as these are known to the authors. Two lists are added: 1. of specimens labelled as types of unavailable names, chiefly those not found in the literature, and supposedly not published, and 2. of specimens labelled as types, but not originally included as such, and published or not after the original description.

Key words: Chrysomelidae, Coleoptera, type specimens, Argentina.

Resumen: Catálogo de los tipos de Chrysomelidae *sensu lato* (Insecta, Coleoptera, Polyphaga) depositados en el Museo Argentino de Ciencias Naturales, Buenos Aires. Se catalogan los ejemplares típicos, de todas las categorías aceptadas, de Chrysomelidae *s.l.* conservados en este museo; se registran 125 nombres, 85 de ellos (68 por ciento) representados aquí por tipos portadores de nombres (tipos 'primarios'), cinco de ellos dudosos. La familia se toma en su concepto más amplio, incluyendo a las Bruchinae, las Hispinae (con las anteriores Cassidinae) y otros grupos a veces considerados como familias separadas. Los nombres específicos y subspecíficos fueron ordenados alfabéticamente; a estos siguen los de los géneros, así como se publicaron originalmente, o de los géneros y especies en el caso de las subespecies y variedades. Se mencionan las combinaciones ulteriores y/o los binomios en uso, hasta donde son conocidos por los autores. Se agregan dos listas: 1. de los ejemplares rotulados como tipos, de nombres no disponibles, principalmente aquellos no hallados en la bibliografía, y supuestamente no publicados, y 2. de los ejemplares rotulados como tipos, pero no incluidos originalmente como tales, publicados o no después de la descripción original.

Palabras clave: Chrysomelidae, ejemplares tipo, Argentina.

INTRODUCTION

A catalog of the typical specimens (all current categories) of species of Chrysomelidae *s.l.* housed in the Entomological Division of this Museum is presented, referred to 125 names: 25 holotypes (four of them dubious, they may be syntypes), 95 syntypes (six of them dubious) of 55 names, 179 paratypes (which include 6 allotypes). Of these 125 names, 85 of them (68 percent) are here represented by name-bearing types ('primary types'). The family is here taken in its broadest sense, including the Bruchinae, the Hispinae (with the former Cassidinae) and other groups sometimes considered as separate families. The classification of Lawrence & Newton (1995) is here followed.

Specific and subspecific names are alphabetically entered, as is usual in type specimen catalogs; each name is followed by the generic one, and the subgeneric one if it was mentioned, spelled as it

was in the original binomen, or by the generic and specific ones in the case of subspecies and varieties. An abbreviated bibliographic citation follows, as well as a listing of the types, if these were mentioned, starting with those deposited in this Museum. An account of the type specimens actually here housed follows, with their label data. According to the International Code of Zoological Nomenclature (4th edition, 1999), allotypes are not 'name-bearing types'. If the country is not mentioned, Argentina is meant; in every other case, the country is mentioned first. Some specimens bear a registration number, entered in the Entomology Division register; numbers under 10000 correspond to the old general register of the Museum. Later nomenclatural or taxonomical changes are added, insofar as these are known to the authors.

For the identification of types not formally designated in the original publication (art. 72.4 of the Code), evidences from the labels as they were writ-

ten in the collections examined by authors of names, are considered. When the authors did not formally designate a holotype, or its equivalent, and did not mention how many specimens were examined, it is assumed that they had a series of syntypes (recommendation 73 F of the Code), eventually 'sole syntypes'.

Some specimens in the collection are labelled as types of names not found in the literature, and assumed not to have been published. These names are probably not available in the sense of the Code; however, in order to assist in future research, they are separately listed.

Specimens labelled as types, but not included in the original publication, and specimens designated as types after the original publication date, published or not, cannot be accepted as included in the type series; however, also in order to assist in future research, they are included in a third list.

Burmeister did not label his types nor other specimens, save sometimes with locality labels; he put, to the left of the specimens or series, a handwritten identification label, fastened with pins to the bottom of the drawer; and added sometimes a vague distribution indication, e.g. «Patagonia» or even «Argentina». The type condition is inferred from the publications, and one of us (AOB) added labels, handwritten on red cardboard, to the specimens deemed to be holotypes or syntypes.

Brèthes often marked his type specimens with a small square piece of red paper, making their identification in the drawers easier.

Bruch used to copy the specific names of the types on his own labels, most of them with a red frame (a few with a green frame), and to add to the same pin a small, folded piece of paper with the name handwritten by the respective author, seemingly cut from a letter; frequently only a part of the generic name, and/or a part of the author's name are legible.

Some specimens in the Bruch collection are labelled as 'cotypes'. If the author did not state how many specimens he had examined, they must be considered as syntypes. We suspect that some of the 'cotypes' in our Museum were not even included in the typical series, but it is not possible to assure their condition. In order to assist in future research, we include them in the present paper as syntypes or as paratypes, according to each context (Bruch used the term '*Cotypus*' sometimes in the sense of *syntypus* and sometimes in the sense of *paratypus*). Lastly, one name (*Probaenia crenata* ab. *interrupta* Monrós & Viana 1947: 273, pl. xxii: 91) although not an available name, is included within this list because of the same reason.

No type specimens were found of 1. *Magalostomis (Scaphigenia) bubalus bubaloides*

Monrós (1954: 99-102), of which some paratypes are said to be in **MACN**, **BRC** and **GPC**; 2. *Uroplata oglobini [sic]* Monrós & Viana (1947: 288-289), of which some 'cotypes' are said to be in **MACN**; 3. *Stereoma laevicollis orophila* Monrós (1954: 224-225), of which some paratypes are said to be in **MACN** and **BRC**; 4. *Megalopus schaeferi* Monrós (1947c: 211-212), of which one paratypes is said to be in **MACN ex ABC**.

Unless otherwise stated, the specimens are glued to cards held by an entomological pin.

This Museum is identified by **MACN**. Repositories of other types are identified as follows: **ABC**, Adolfo Breyer coll., in **MACN**; **AMC**, A. Martínez coll., types now in **MACN**; **APC**, A. Prosen coll.; **BC**, G. Bondar coll.; **BEC**, C. Berg coll., in **MACN**; **BM**, The Natural History Museum, London; **BRC**, C. Bruch coll., in **MACN**; **CM**, Carnegie Museum; **CMSM**, Colegio Máximo, San Miguel, B. Aires, later Inesalt, now in Salta National University; **CSC**, Campos Seabra coll., Brasil; **DC**, Diringshofen coll.; **DEI**, Deutsches Entomologisches Institut, Berlin-Eberswalde; **DZSP**, Dept. Zoologia, São Paulo, Brasil; **EEAT**, Estación Experimental Agropecuaria, Tucumán, Argentina; **ERJ**, Instituto Experimental Agrícola, Rio de Janeiro, Brasil; **FIML**, Fundación e Instituto Miguel Lillo, Tucumán, Argentina; **FMNH**, Field Museum of Natural History, Chicago, U.S.A.; **GKC**, G. Kuschel coll.; **GM**, Genf Museum, Suisse; **GPC**, G. Pellerano coll., in **MACN**; **HB**, H. Burmeister coll., in **MACN**; **IIE**, Imperial Institute of Entomology, London, U.K.; **JBC**, J. Bosq coll.; **JBR**, J. Brèthes coll., in **MACN**; **JDC**, J. Daguerre coll.; **MAC**, M. Alvarenga coll., Brasil; **MC**, F. Monrós coll.; **MCSN**, Museo Civico de Scienze Naturale, Genova, Italia; **MF**, Museum Frey, Tützing, Germany, now in **NHMB**; **MG**, Museu Goeldi, Manaus, Brasil; **MLP**, Museo de La Plata, La Plata, Argentina; **MNH**, Museum Nationalis Hungaricus, Budapest, Hungary; **MNHN**, Muséum National d'Histoire Naturelle, Paris, France; **MP**, Museum Pragae, Czech Rep.; **MPA**, Museu Paranaense; **MRB**, Musée Royal d'Histoire Naturelle de Belgique, Bruxelles, Belgique; **MVC**, M. Bokermann coll., Brasil; **ZMB**, Zoologisches Museum, Berlin, Germany.

Abbreviations used: **ab.**, *aberratio*; **allot.**, *allotypus* (alotipo); **coll.**, collection; **cot.**, *cotypus*

(*cotypi*, *cotipo*); **f.**, figure; **handwr.**, handwritten; **holot.**, *holotypus* (holotipo); **leg.**, *legit* (*legint*); **p.**, page; **parat.**, *paratypus* (*paratypi*, paratipo); **print.**, printed; **spec.**, specimen (specimens); **synt.**, *syntypus* (*syntypi*, sintipo).

CATALOG OF THE TYPES

achalay [*Chlamisus*]. Monrós 1952b: 592-594, f. 87, 136. La Rioja Prov.: Nonogasta, leg. M. Gómez, one **parat.** ex **BRC**. **Holot.** male, Salta Prov.: Coronel Moldes in **MC**, one **parat.** in **USNM**.

One **parat.** «Nonogasta / Rioja / Gómez» handwr. by Bruch; «Col. / C. Bruch» print. with red ink; «53380» handwr., red frame; «Paratypus» print. on yellow cardboard; «Chlamisus / achalay / mihi [handwr.] / F. Monrós det. 1949 [print.]» on pink paper. Ex **BRC**.

acuminatus [*Cryptocephalus*]. Jacoby 1908: 838. Tucumán; in addition one spec. in **MLP**.

One **synt.** «Rep. Argentina / Prov. Tucumán / 15.VII.1900 / C. Bruch» print., date handwr.; «Cotypus» print. on pale green paper; «Cryptocephalus / acuminatus / Jac.» handwr. by Bruch, red frame. Ex **BRC**.

acutangula [*Hybosa*]. Spaeth 1913: 163-164. Abundant in Paraguay; Brasil: Espiritu Santo, and Argentina: Misiones leg. Jörgensen.

One **synt.**, pinned, «Rep. Argentina / Gob. Misiones / XI.1909 / C. Bruch» print., date handwr. «Cotypus» print. on pale green paper; «Hybosa / acutangula / Spth.» handwr. by Bruch, red frame; «Hybosa / acutangula» handwr., cut. Ex **BRC**.

albopilosa [*Euryscopa*]. Monrós 1954: 106-109, f. 146-154. Santiago del Estero Prov., 3 **parat.** ex **BRC**. **Holot.** ♂, allot. ♀, several **parat.** Misiones Prov.: San Javier: Santa María, in **MC**; other parat. in **BM**, **DEI**, **MLP**, **FIML**, **MVC**, **JBC**, **AMC**.

Three **parat.**, two of them «Rep. Argentina / Prov. Santiago d. Estero / 190_ / C. Bruch» print., black frame; the other one «Sgo. Estero» handwr.; «Paratipo» handwr. on white paper, with a red frame; «Euryscopa / albopilosa / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink paper, ex **BRC**. two parat. «Argentina / Buenos Aires / Pdo. de Puan / Est. Felipe Solá / Coll. Martínez / Dic. 951 [952]» handwr. on white paper; «Euryscopa / albopilosa / Monrós / Paratipo» handwr. with pencil. Ex **AMC**.

Note: Moldenke (1981: 92) described the new genus *Coleorozena*, assigning *Euryscopa albopilosa* to it.

alvarengai [*Megamerus*]. Monrós 1956: 108-111, 113, f. 1-13. Brasil: Rio Grande do Norte: Natal,

leg. Alvarenga 25.IV.1950, **holot.** ♂, **allot.** ♀. in **DZSP**; 3 **parat.** **MAC**, 1 **parat.** **CSC**, 1 **parat.** **MC**.

One **parat.**, pinned, a leg glued to a pointed card, «Coleção / M. Alvarenga / N 1503» printed; «Natal / R.G. Norte Brasil / 25-IV-1950 / M. Alvarenga Coll.» print., date handwr.; «Paratipo» handwr. on white paper with a red frame; «Megamerus / alvarengai / Monrós [handwr.] / F. Monrós det. 1955 [print.]» on pink paper with a black frame.

anthracinus [*Monachus*]. Burmeister 1877: 62-63. Patagonia, Río Negro Prov. (*sic, pro* Buenos Aires Prov.): Carmen de Patagones.

One **synt.** without labels. On the bottom of the drawer a label reads «anthracinus Nob.». One of us (AOB) added «Monachus / anthracinus / Burmeister 1877 / Typus» handwr. on red cardboard. Ex **HB**.

Note: Blackwelder (1946: 643) records this species under *Lexiphanes* Gistel 1850 *nom. nov. pro Monachus* Déjean 1835, *non* Kaup 1829 *nec* Fleming 1822. Leng (1918: 208) proposed *Monachulus* as a replacement name.

argentina [*sub Argentina*] [*Coscinoptera*]. Burmeister 1877: 60-61. [Entre Ríos Prov.]: Paraná, and southern Corrientes Prov.

Two **synt.**, pinned, one of them «Parana / Febr.» print. on dark green paper, the other without labels. One of us (AOB) added to both «Coscinoptera / argentina / Burmeister 1877 / Syntypus» handwr. on red cardboard. Ex **HB**.

Note: Moldenke (1981: 96) proposed the new subgenus *Coleoguerina*, assigning *Coscinoptera argentina* as the type species.

argentinensis [*Chaetocnema*]. Bryant 1951: 941-942, f. 4. Argent.: Est. Exp. Station XI.1948, 23 spec.; [Entre Ríos Prov.]: Nogoyá XI.1948, leg. Hepper.

Eight **synt.?** **parat.?** on four cards on one pin; three paper disks, «Paratype», with yellow border; «Victoria E.R.-XI.48 / H.C. Hepper», «Maíz dulce-amargo / sorgo azucarado» handwr. by Hepper; «Com. Inst. Ent. / Coll. n°. [print.] 12021 [handwr.]»; «53249» handwr., red frame; «Chaetocnema / argentinensis / Bryant [handwr.] / G.E. Bryant det. [print.]» on white paper.

Note: No types were formally designated, so a series of synt. should be assumed, but the specimens are labelled «Paratypus», rendering the category doubtful.

argentinensis [*Mastotethus*]. Jacoby 1904a: 65-66. Tucumán, two spec.

Two **synt.**, pinned «Rep. Argentina / Prov. Tucumán / XII.1897 / C. Bruch» print., date handwr.; «Typus» print. on pale green paper;

«*Mastostethus / argentinensis / Jac. / Co-tipo*» handwr. by Bruch, red frame. *Ex BRC*.

argentinensis [*Metallactus*]. Jacoby 1908: 850-851. Córdoba. Seemingly a single spec., as only one measure was given.

Holot?, **synt.?** «Rep. Argentina / Prov. Córdoba / 190_ / C. Bruch» print.; «Cotypus» print. on pale green paper; «*Metallactus / argentinensis / Jac.*» handwr. by Bruch, red frame. *Ex BRC*.

Note: The 'Cotypus' label suggests that Jacoby examined more than one spec.

argentinus [*Cryptocephalus*]. Jacoby 1908: 844. Buenos Aires, received from **MLP**.

One **synt.**, «Rep. Argentina / Prov. Buenos Aires / 27.XI.1904 / C. Bruch» print., date handwr.; «Cotypus» print. on pale green paper; «*Cryptocephalus / argentinus / Jac.*» handwr. by Bruch, red frame. *Ex BRC*.

atra [*Octhispa*]. Weise 1922: 32. Prov. Buenos Aires, *ex BRC*.

Holot. «Typus» print. on pale green paper; «Rep. Argentina / Prov. Buenos Aires / 190_ / C. Bruch» print.; «Dibujado» [drawn] handwr.; «51056» handwr, red frame; «*Octhispa / atra / Ws.*» handwr. by Bruch, red frame; «*Octhis / atra*» handwr., cut; «*Nanocthispa / atra* (Weise) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard. *Ex BRC*.

Note: Recorded as *Nanocthispa atra* by Monrós & Viana (1947: 313, pl. xxvi: 116), who state to have examined the type.

atricornis [*Probaenia*]. Pic 1927: 9. Argentina, in **BRC** and **PC**.

Two **synt.** on cards, on one pin, «Typus» handwr. on pale green paper; «Alta Gracia. La Granja / Sierras de Córdoba / 16.II.927. C. Bruch leg.» print., date handwr.; «51026» handwr., red frame; «Col. / C. Bruch» print.; «*Probaenia / atricornis / Pic*» handwr. by Bruch, red frame; «*Probaenia / atricornis*» handwr., cut; «*Uroplata / (Cardiohispa) / jucunda / Chap. / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]*» on white cardboard. *Ex BRC*.

Notes: Transferred to *Uroplata* by Uhmman (1937a: 457). A synonym of *Uroplata (Cardiohispa) jucunda* Chapuis 1877, after Monrós & Viana (1947: 295-296, pl. xxv: 107). Descarpentries & Villiers (1959: 150) state that they examined the 'holotype' in the Pic collection, and that it comes from Córdoba Prov.

basalis [*Araeostenus*]. Brèthes 1922: 286-287. [Paraná River Delta]: Islas del Tigre 26.II.1911.

Holot., «Tuyuparé / 26.II.11 / J.B.» handwr. by Brèthes, black frame; «*Araeostenus / basalis / Brèthes*», «type!» handwr. by Brèthes; a small square piece of red paper. One of us (AOB) added «Holotypus» printed on red cardboard. *Ex JBR*.

bicoloriceps [*Anisostena*]. Pic 1928a: 51-52. Corrientes Prov.: San Roque, *leg. Bosq*, in **BRC** and **JBC**.

One **synt.** «Corrientes / I.1921. De Carlo» handwr. by Bruch; «Col. / C. Bruch» print.; «50940» handwr., red frame; «Typus» print. on red cardboard; «*Anisostena / bicoloriceps / Pic*» handwr. by Bruch, red frame; «*Anisostena / bicoloriceps*» handwr., cut; «*Anisostena / (Neostena) / bicoloriceps / Pic / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]*» on white cardboard. *Ex BRC*.

Notes: The collector's name differs, but otherwise the labels seem authentic. Included in subgenus *Anisostena (Neostena)* by Monrós & Viana (1947: 204-206), who consider *Charistena elongaticeps* Pic 1928 as a synonym. Descarpentries & Villiers (1959) state no type is in **PC**.

bisignata [*Mecistomela (Coraliomela) vicina* var.]. Berg 1900: 256. Bolivia, in **MACN**.

Holot., pinned «Bolivia / S. Mart.» handwr. on green paper, reverse white; «Col. / Antigua» print. on pale yellowish paper; «51105» handwr., red frame; «Typus» print. on red paper; «var. *bisignata* Berg», «*vicina* (Guér.)», handwr. by Berg on yellowish paper.

Notes: Currently included in *Coraliomela*. This variety was not dealt with by Monrós & Viana (1947).

bivitticollis [*Cryptocephalus*]. Jacoby 1908: 838-839. Argentina, perhaps a single spec., as only one measure is given.

Holot?, **synt.?** «Rep. Argentina / Prov. Buenos Aires / I.1895 / C. Bruch» printed, date handwr.; «Cotypus» print. on pale green paper; «*Cryptocephalus / bivitticollis / Jac.*» handwr. by Bruch, red frame. *Ex BRC*.

Note: The «Cotypus» label suggests that Jacoby could have seen more than one spec.

brittocostai [*Chlamisus*]. Bokermann 1962a: 277. 3 ♀ (1018-1020), 1 ♂ (1021), without other data.

Three **parat.** «Colecção Bokermann», print. on red paper; «George Oeterer / São Paulo - Brasil / 23-X-1961 / Werner col.», print., date handwr.; «*Chlamisus / brittocostai / Paratipo* ♀ [on two], [♂

on the other] [handwr.] / Bokermann det. 1962 [print.]» on red paper; «1019» [«1020», «1021»], typed, the last one *ex* **AMC**.

brochoni [*Plectonycha*]. Brèthes 1925: 15-16. Santa Fe, Brochon *leg*.

Holot. «S^{ta} Fe / L. Brochon» handwr.; «Rep. preparo / M. Viana / I-1960» handwr.; «2531» handwr.; «Plectonycha / Brochoni / Brèthes» handwr. by Brèthes. One of us (AOB) added «Typus» printed on pink cardboard. *Ex* **JBR**.

Note: Monrós (1947b: 47, 53, 62-63, f. 9) states having examined the holot. and several parat. from the same locality, from **JBR**.

bruchii [*Cephalodonta*]. Weise 1904: 443. Buenos Aires Prov. 10.V.1897, several spec. *ex* **BRC**.

One **synt.** «Rep. Argentina / Prov. Buenos Aires / 10.V.1897 / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «50927» handwr., red frame; «Typus» print. on red paper; «Cephalodonta / Bruchi / Weise - tipo» handwr. by Bruch, red frame; «Cephalodonta / Bruchi m.» handwr., cut; «Sceloenopla (Pseudispa) [sic] / bruchi Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard with a black frame. *Ex* **BRC**.

Note: Monrós & Viana (1947: 189-190, pl. iii: 13) examined the «type series» in MACN, and transferred the species to *Sceloenopla (Pseudispa) [sic, pro Pseudhispa]*. They put another spec. in BRC, taken after the publication date, and not labelled as a type.

bruchii [*Stethispa*]. Weise 1906: 224. Misiones Prov. V.1895.

Holot., «Rep. Argentina / Gob. Misiones / 5.1895 / C. Bruch» print., date handwr.; «Col. / C. Bruch» printed; «Typus» print. on red paper; «Stethispa / Bruchi / Weise. tipo» handwr. by Bruch, red frame; «Stethispa / Bruchi m.» handwr., cut; «Stethispa / bruchi Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]». *Ex* **BRC**.

bruchii [*Rhinotmetus*]. Bowditch 1915: 490. Buenos Aires Prov., several spec. *ex* **BRC**; *ex* 2^d coll. Jacoby *sub* 28c.

One **synt.** «Rep. Argentina / Prov. Buenos Aires / IV.1896 [?] / C. Bruch» print., date handwr.; «Typus» print. on pale green paper; «Rhinotmetus / Bruchii / Bowd.» handwr. by Bruch, red frame; «Rhinotmetus / Bruchii / nov. spec. Bow.» handwr., cut. *Ex* **BRC**.

carbonarius [*Cryptocephalus*]. Burmeister 1877: 64-65. Buenos Aires.

Two **synt.**, one of them «Buen / Ayres» print. on green paper, the other without labels. One of us (AOB) added to both «*Cryptocephalus / carbonarius / Burmeister 1877 / Syntypus*» handwr. on red cardboard. *Ex* **HB**.

carinipennis [*Exema*]. Monrós 1952b: 653-655, f. 160, 165, 169. Corrientes Prov.: Santo Tomé *leg*. G. Pellerano, 1 **parat.** in **MACN**. **Holot.** Brasil: São Paulo: Morumbí, *leg*. Nick, in **FIML**, several **parat.** in **MP, MG, MC, MVC**.

One **parat.** «S. Tomé / Corrientes / 10-923» print., date handwr., black frame; «53397» handwr., red frame; «Paratypus» print. on yellow cardboard; «*Exema / carinipennis / mihi* [handwr.] / F. Monrós det. 1950 [print.]» on pink paper. *Ex* **GPC**.

Note: Chûjô (1955: 56) considers *Exema* as a junior synonym of *Chlamisus*. Karren (1966: 651) considers both generic names as valid.

carnegianus [*Chlamisus*]. Bokermann 1964: 73-75, f. 30-34. Brasil: Mato Grosso: Cuiabá 7.XII.1962, **holot.** ♂, **allot.** ♀, 2 ♂ **parat.** in **WBC**; M. Grosso: Corumbá, 1 **parat.** **CM**; Chapada de Guimarães 27 **parat.** in **CM, MG**; Bahia: 2 **parat.** **BM, CSC**; Amazonas: Teffé, 2 **parat.** **WBC, CSC**; Pará, 1 **parat.** **BM**; Amapá: Porto Santana in **MG**; Bolivia: Pando: Riberalta in **WBC, APC**.

One **parat.** «Coleção / Bokermann» print. on red paper, black frame; «Chapada / Brasil / Acc. Nº 2966», «Nov.» print., both fastened to a white label with a black frame; «2246» typed. 1 **parat.** «Riberalta / Pando - Bolivia / XI-956, Prosen» fotogr. from typed; «21215» handwr. Both: «*Chlamisus / carnegianus / paratipo* ♀ [handwr.] / Bokermann det. 1963 [print.]» on red paper, black frame. *Ex* **AMC**.

chapadiensis [*Chlamisus*]. Bokermann 1962b: 159-161, f. 16-20. Brasil: Mato Grosso: Chapada do Guimarães, 220 ex., 210 of them *leg*. Oliveira 24-29.X.1961, **holot.** ♀, **allot.** ♂ *in copula*, 5 ♂, 4 ♀ **parat.** in **CSC**; 115 ♂, 84 ♀ **parat.** in **WBC**. 10 further **parat.** *leg*. Bechyné 25.I.1961 and 1.II.1961, in **MG, WBC**.

Three **parat.** «Coleção Bokermann» print. on red paper; «Chap. do Guimarães / M. Grosso-Brasil / 24-29-X-1961 F.M. Oliveira col.» print.; «1487», «1488» and «1489» respectiv., typed; «*Chlamisus / chapadiensis / Paratipo* ♂ [handwr.] / Bokermann det. 1962 [print.]» on red paper. The last one *ex* **AMC**.

cleroides [*Cylindrodachrys*]. Monrós 1944: 149-151, f. 1a. Several **spec.** Catamarca Prov.: Belén: La Ciénaga, *leg*. Weiser & Wolters, *ex* **BRC**; 1 spec. San Luis Prov. *ex* **BRC**; 1 spec. Paraguay, *sub* 45093.

Holot. and **allot.** Catamarca Prov.: Pomán: Colpes V.1942 in **MC**; 4 **parat.** Santiago del Estero Prov.: Campo Gallo III.1943 (2 in **APC**, 2 in **MC**). 2 spec. Catamarca Prov. in **JBC**. 3 **spec.** La Rioja Prov. in **JBC**. 6 **spec.** from different localities in **MVC**. No other types formally designated.

Twelve **parat.** glued to cards, on 7 pins (2 with one, 5 with two) «La Ciénaga (Belén) / Catamarca 1925 / Weiser Wolters leg.» print., 2 of the labels only «192_»; «Col./C. Bruch» printed; «Paratipo» handwr. on white paper, red frame; «Cylindrodachrys / cleroides / mihi [handwr.] / F. Monrós det. 1945 [one of them 1946] [print.]» on pink paper; 1 **parat. id.** but «La Ciénaga/Catam. Wolters» handwr. by Bruch; 1 **parat.** «Rep. Argentina / Prov. San Luis / 190_ / C. Bruch» print.; «Paratipo» and «Cylindrodachrys / cleroides / mihi» as the former; 1 **parat.** «45093» handwr., red frame [the entry 45093 in the register of the Entomological Division of the Museum reads «Paraguay VI.1939», bought to Pedro Willin]; «Paratipo» and «Cylindrodachrys / cleroides / mihi» as the former. **Ex BRC**

Note: Except for the holot. and the allot., all other spec. were recorded as «ejemplares» [spec.], so rendering it uncertain if they were intended to conform the type series.

concinus [*Chlamisus*]. Bokermann 1964: 79-80, f. 45-49. Brasil: Minas Gerais: Jaboticatuba: Serra do Cipó leg. Martínez XII.1962, **holot. ♂**, **allot. ♀**, 5 ♀, 3 ♂ **parat.** in **WBC**, 1 ♂, 1 ♀ in **AMC**.

Two **parat.** «Serra do Cipó / M. Gerais - Brasil / XI.1962 / A. Martínez col.» handwr., black frame; «2167» [2162] typed; «Chlamisus / concinus / paratipo ♂ [♀] [handwr.] / Bokermann det. 1963 [print.]» on red paper, black frame. **Ex AMC**.

coscaroni [*Eugenysa*]. Viana 1968: 9, 13, 23-28, 96, pl. i: 4, pl. v: 30. Panamá: cerro Campana XI.1963 leg. Coscarón, **holot. ♂**, **allot. ♀** in **MACN**. **Parat.** in **USNM**.

Holot. ♂, **allot. ♀**, the ♀ with an antenna glued to a further card, «C^o Campana PA / XI-63 Coscarón» handwr.; «Holotypus», [Allotypus]», print. on red cardboard; «Eugenysa / coscaroni / Viana n. sp. [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / Det. M. Viana / IV.1967 Holotipo [Alotipo] [handwr.] [reverse]» on red cardboard.

coya [*Chlamisus*]. Monrós 1952b: 604-606, f. 91, 141. Jujuy Prov., **holot.** in **MACN**.

Holot. «Jujuy» handwr. on green paper, reverse white; «53386» handwr., red frame; «Holotypus» print. on red paper; «Chlamisus / coya / mihi [handwr.] / F. Monrós det. 1948 [print.]» on pink paper.

daguerrei [*Octotoma*]. Pic 1930: 45-46. Buenos Aires Prov.: Rosas, leg. Daguerre, in **BRC** and **PC**.

One **synt.** «Typus» handwr. by Bruch on pale green paper; «Rosas F.C. Sud / Provincia de Buenos Aires / Juan B. Daguerre» print.; «Col. / C. Bruch» print.; «51030» handwr., red frame; «Octotoma / Daguerrei / Pic [handwr.] / C. Bruch determ. [print.]» on white paper, black frame; «Octotoma / Daguerrei n. sp.» handwr., cut; «Uroplata / (Codiohispa) / daguerrei (Pic) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. One of us (AOB) added «Syntypus» handwr. on red paper. **Ex BRC**.

Notes: Transferred to *Uroplata* by Uhmman (1938: 370). Included in *Uroplata (Codiohispa)* by Monrós & Viana (1947: 292-293, pl. xxiv: 98), who state to have examined this type. There is no type designation in the original description, nevertheless Descarpentiers & Villiers (1959) mention that the holotype of this species is deposited in the Muséum National d'Histoire Naturelle in Paris. Staines & Staines (1997:7) mention that eight specimens from the Daguerre collection are deposited in the USNM, and that these USNM plus Paris spec. should be considered as syntypes.

decolorata [*Temnodachrys (Eudachrys)*]. Monrós 1954: 204-205, f. 310. Santiago del Estero Prov. 2 **parat.** in **BRC**. **Holot.** Santiago del Estero Prov.: Colonia Dora in **APC**.

Two **parat.** «Rep. Argentina / Prov. Santiago d. Estero / 190_ / C. Bruch» print.; «Col. / C. Bruch» print.; «Paratipo» handwr. on white paper, red frame; «Dachrys / decolorata / mihi [handwr.] / F. Monrós det. 1951 [print.]» on pink paper. **Ex BRC**.

densepunctata [*Urodera hamatifera* ssp.]. Monrós 1954: 243, f. 359. Jujuy Prov., 15 **parat. ex BRC**; 1 **parat.** Chaco Prov.; 1 **parat.** Misiones Prov.: Puerto Aguirre, leg. Hayward; 2 **parat.** without locality label, leg. Girard, all these in **MACN**. **Holot.** Salta: Güemes, leg. Martínez in **MC**, other **parat.** in **MLP**, **FIML**, **MC**.

Fifteen **parat.**, pinned «Rep. Argentina / Prov. Jujuy / 190_ / C. Bruch» print.; **ex BRC**. 1 **parat.**, pinned «Chaco» handwr. on green paper, reverse white; «7725» handwr., red frame; 1 **parat.**, pinned «Puerto Aguirre / Misiones - Arg. / Hayward 1934» print., hardly legible; «Col. / A. Breyer» print.; 1 **parat.**, pinned «R.A. Sgo / 1906 Girard» handwr.; «16773» handwr., red frame, this one **ex ABC**. All: «Paratipo» handwr. on white paper, red frame; «U. hamatifera / ssp. densepunctata / mihi [handwr.] / F. Monrós det. 1951 [print.]» on pink paper.

difficilis [*Anoplitis*]. Monrós & Viana 1947: 210-211, pl. xi: 39. Misiones Prov.: Loreto, *leg.* Ogloblin, 2 **cot.** in **MACN**; other **cot.** Bolivia: Chulumani, *leg.* Denier in **MLP**; Misiones Prov.: Loreto in **MC**; Misiones Prov.: San Javier in **MLP**; Entre Ríos Prov.: Paraná, *leg.* Bridarolli, on *Canavalia ensiformis*.

One **synt.** «Dibujado» [drawn] handwr.; «Misiones. Loreto / 11.1936 [obverse] / Bosq [reverse]» handwr. by Bosq; «s/hojas Canavalia» handwr.; «51124» handwr., red frame. 1 **synt.** «Parana / I-29/ Gomez del Rio C.I.» print.; «51125» handwr., red frame. Both «Cotypus» print. on red cardboard; «Anoplites / difficilis / Monros-Viana / Cotipo [handwr.] / Museo Argentino de Ciencias Naturales [print.]» on red cardboard with a black frame.

Notes: Butte (1967: 219) considers *Anoplites* as a synonym of *Chalepus*. Gaedicke & Döbler (1971: 347) examined another synt. in **DEI**.

diringshofeni [*Eugenysa*]. Viana 1968: 7, 14, 32-36, 97, pl. ii: 7, pl. v: 33. Brasil: Pará: Obidos VII.1956 *leg.* Oliveira, **holot.** ♂, **allot.** ♀ in **MACN** *ex* **AMC**; **parat.** in **AMC**, **CSC**, **RCC**, **DC**.

Holot., **allot.**, two **parat.** «Brasil. Eº de Pará / Obidos / Oliveira *leg.* / Coll. Martínez / Jul. 956» handwr. «Holotypus» [«Allotypus», «Paratypus»] print. on red [red, yellow] cardboard; 1 **parat.** «Ovidos [*sic*] / Amazonas IV-38» handwr.; «Cass. 16 / Obidos, Amaz. / 4.38 Pohl» handwr.; «Paratypus» as the former. 2 **parat.** «Coleção Campos Seabra» print., one of them «Obidos. Pará. Brasil. IX.1964 / F.M. Oliveira» print. on yellow paper; the other «Colonia Rio Branco / Obidos. Pará / Brasil IX.1953 / F.M. Oliveira» print. on yellow paper, both «Paratypus» as the former. 1 **parat.** «Brasil. Amazonas. Obidos», «X-1954. A. Martínez» handwr. on white paper, «Paratypus» as the former. All «Eugenysa / diringshofeni / Viana Holotipo ♂ [Alotipo ♀, Paratipo.] [obverse] / M. Viana X-1968 [reverse]» handwr. on red, red, and yellow cardboard with black frames. **Allot.** *ex* **AMC**.

divisus [*Metallactus*]. Jacoby 1908: 853. Argentina: Chaco Prov., ♂.

Holot.?, **synt.?** «Rep. Argentina / Gob. Chaco / 190_ / C. Bruch» printed; «Cotypus» printed on pale green paper; «Metallactus / divisus / Jac.» handwr. by Bruch, red frame. *Ex* **BRC**.

Note: It is not clear how many spec. were examined by Jacoby: he gives only one measurement, but the «Cotypus» label suggests more than one spec.

duplicata [*Urodera*]. Monrós 1954: 249-250, f. 371. Corrientes Prov.: Santo Tomé, *leg.* G. Pellerano 4

parat.; Chaco Prov. 2 **parat.**; Chaco Prov.: Resistencia XII.1935 *leg.* Daguerre; 3 **parat.**; Córdoba Prov. 1 **parat.** *ex* **BRC**; Córdoba Prov. 1 **parat.** det. *U. sobrina*, *ex* **HB**; Córdoba Prov.: Río Cuarto 1 **parat.**; Catamarca Prov. 1 **parat.**; Santa Fe Prov.: Fives Lille 25.X.1923, 12 **parat.** *ex* **BRC**; 2 **parat.** without locality label, one of them «det. *U. van*», *ex* **HB**. All of these in **MACN**. **Holot.** ♂, **allot.** ♀ from Santa Fe Prov.: Fives Lille *leg.* Caride in **MC**. Other **parat.** in **MLP**, **FIML**, **MC**, **APC**, **MVC**.

Six **parat.**, three of them separately pinned, three glued to one card «S. Tomé / Corrientes / 10-923 [on one, pinned, 11-926 on two, pinned, 10-928 on the three glued, respectiv.]», print., dates handwr., black frame; «Paratipo» handwr. on white paper, red frame; «Urodera / duplicata / mihi [handwr.] / F. Monrós det. 1953 [print.]» on pink paper, *ex* **GPC** three **parat.** glued to cards, on one pin «Chaco / Argentina parat., / Dep. Resistencia / X-XII-935 / J.B. Daguerre», print.; «46187» handwr., red frame. one **parat.**, pinned, «Chaco» handwr. on green paper; «6882» handwr., red frame. one **parat.** «Rep. Argentina / Prov. Córdoba / 16.II.1902 / C. Bruch» print., date handwr.; «Jac. ¥» handwr.; «Col. / C. Bruch» print.. one **parat.**, pinned «Cordova» print. on green paper; «Col. / Antigua» print.. one **parat.**, pinned «Rio 4º / Cordob.» handwr.; one **parat.** «Catamarca» handwr. on green paper, «10210» handwr., red frame. eleven **parat.** on cards, on five pins (two with three, two with two, one with one) «Fives Lille / S. Fe» with different dates, handwr.; one **parat.** on a card «Rep. Argentina / Prov. Santa Fe / 190_ / C. Bruch» print.. one **parat.**, pinned, without locality label, «Col. / Antigua», print.. one **parat.** without locality label, «6646» handwr., red frame. All: «Paratipo» handwr. on white paper, red frame; «Urodera / duplicata / mihi [handwr.] / F. Monrós det. 1953 [print.]» on pink paper.

Note: Moldenke (1981: 111) described the subgenus *Paraurodera* (*Torourodera*) and transferred *Urodera duplicata* to it.

ebeninus [*Monachus*]. Burmeister 1877: 63. Patagonia: Santa Cruz River.

One **synt.** «S. Cruz / Patagonia» print. on green paper; on the bottom of the drawer a label reads «ebeninus Nob.» handwr. by Burmeister. *Ex* **HB**.

Notes: Currently in *Lexiphanes* Gistel 1850 *nom. nov. pro Monachus* Déjean 1835, Chevrolat 1837, *non* Fleming 1822 *nec* Kaup 1829. Leng (1918: 208) proposed *Monachus* as a replacement name.

elongaticeps [*?Charistena*]. Pic 1928b: 101-102. Salta 15.II.1905, in **BRC**.

Holot. «Rep. Argentina / Prov. Salta / 15.II.1905 / C. Bruch» print., date handwr.; «Col. / C. Bruch»

print.; «Typus» print. on red paper; «Charistena / elongaticeps / Pic» handwr. by Bruch, green frame; «?Charistena / elongaticeps» handwr., cut; «Anisostena / (Neostena) / bicoloriceps / Pic / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X.1947 [handwr.] [reverse]» on white paper with a black frame. *Ex BRC*.

Notes: Monrós & Viana (1947: 204-206, pl. xii: 46) examined the types, and synonymized the name with *Anisostena (Neostena) bicoloriceps* Pic 1928. Descarpentries & Villiers (1959) stated that there is no type in **PC**.

euryscopoides [*Coscinoptera*]. Monrós 1954: 127-128, f. 205. Santiago del Estero Prov., *leg.* Girard, two **parat.** in **MACN**. **Holot.** ♂, **allot.** ♀, several **parat.** Salta Prov.: Güemes, in **MC** and **FIML**; other **parat.** in **APC**, **AMC**.

Two **parat.**, pinned «R.A. Sgo. / 1906 [1907]» handwr. with red and black ink respectiv.; «16784» handwr., red frame; «Paratipo» handwr. on white paper, red frame; «Coscinoptera / euryscopoides / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink paper, one of them in addition «Euryscopa / proxima / Lacord.» handwr. One **parat.** glued to a card «R.A. Salta / Güemes / I-950 / Coll. Martínez» handwr. on white paper, black frame; «Paratipo / ♀» handwr., red frame; «Coscinoptera / euryscopoides / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink paper with a black frame. The last one *ex AMC*.

fallaciosa [*Urodera*]. Monrós 1954: 246-249, f. 360-369. Córdoba, two **parat.** *ex BRC*; 2 **parat.** Córdoba Prov.: Río Cuarto *leg.* Pellerano; one **parat.** Córdoba Prov.: San Javier: La Paz 29.I.1929 *ex BRC*; two **parat.** San Luis; one **parat.** Santa Fe, *ex BRC*; one **parat.** Corrientes Prov.: Santo Tomé *leg.* Pellerano X.1925, all in **MACN**. **Holot.** ♂, **allot.** ♀ Córdoba, *leg.* Molinari, in **MC**. Other **parat.** in **MLP**, **FIML**, **MC**, **MVC**, **APC**.

Two **parat.**, one pinned, one glued to a card «Rep. Argentina / Prov. Córdoba / 190_ / C. Bruch» print.; «Col. / C. Bruch» print. two **parat.**, pinned «Río 4º / Córdoba.» handwr. one **parat.** on a card «La Paz (Dep. San Javier / Córdoba 1-20-I-1929 / C. Bruch» print.; two **parat.**, pinned «Prov. de / San Luis» handwr. on green paper, reverse white; «10926» handwr., red frame. two **parat.**, pinned «S. Tomé / Corrientes / 10-925» print., date handwr., *ex GPC*. one **parat.**, pinned «Chaco» handwr. on green paper, reverse white; «6882» handwr., red frame. All: «Paratipo» handwr. on white paper with a red frame; «Urodera / fallaciosa / mihi [handwr.] / F. Monrós det. 1953 [print.]» on pink paper. Several of these *ex BRC*.

fasciata [*Probaenia*]. Weise 1906: 225. Brasil IX.1901, *ex BRC*

One **synt.** «Typus» print. on pale green paper; «Rep. Brasil / IX.1901 / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «Probaenia / fasciata / Weise-tipo» handwr. by Bruch, red frame; «Probaenia / fasciata m.» handwr., cut. *Ex BRC*.

fasciatus [*Xenochalepus bicostatus* ab.? b]. Weise 1922: 31. Paraguay: Santa Trinidad *leg.* Zürcher VIII.1913 (unavailable name).

fasciatus [*Xenochalepus (Hemichalepus) bicostatus* subsp.]. Monrós & Viana 1947: 245, pl. xix: 72.

Holot. «Dibujado» [drawn] handwr.; «Paraguay / Sa. Trinidad / VIII-1913» print., date handwr.; «Col. / C. Bruch» print.; «50975» handwr., red frame; «X. bicostatus / ab. fasciatus / Ws.?» handwr. by Bruch, red frame; «bicostat ab. fascia?» handwr., cut; «Xenochalepus / (Hemichalepus) / bicostatus / Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white paper, black frame.

Note: The name is unavailable as from Weise 1922 (it was published as a dubious 'aberration'). Monrós & Viana (1947: 245, pl. xix: 72) examined the holot., and redescribed it as a subspecies, so conferring availability.

fernandoi [*Himatidium*]. Bondar 1940b: 849-850. Brasil: Bahia: Jequié and Nazareth, on flowers of *Galathea* (Marantaceae). **Type** in **BC**, «**cotypes**» in **BM** and **ERJ**.

One **parat.** «Brasil / Eº Bahia / Mun. Jequié / Bondar *leg.* / Coll. Martínez 5-IV-1940» handwr.; «Cotype» print. on dark red paper with a black frame; «Himatidium / fernandoi / Bondar», handwr. on white paper with a black frame; «Imatidium / Fernandoi / Det. Bondar» handwr., remainings of a black frame.

Notes: *Imatidium* is the correct spelling. A synonym of *Cephaloleia opaca* Baly, 1858.

figueroae [*Myochrous*]. Brèthes 1925: 16. [Buenos Aires Prov.]: La Plata 12.IV.1923 *leg.* R. Figueroa, one spec.

Holot. «La Plata / 12.IV.923 / R. Figueroa López» handwr.; «Repreparo / M. Viana / I-1960» handwr.; «Myochrous / platensis Brèthes» handwr. by Brèthes; one of us (AOB) added «Myochrous / figueroae / Brèthes» handwr. on red cardboard, and «Holotypus» print. on red cardboard with a black frame. *Ex JBR*.

flavifrons [*Monachus*]. Burmeister 1877: 64. Southern Patagonia, Santa Cruz Stream.

One **synt.** «S. Cruz / Patag.» print. on green paper. On the bottom of the drawer a label reads «flavifrons / Nobis» handwr. by Burmeister. One of us (AOB) added «Monachus / flavifrons / Burmeister 1877 / Typus» handwr. on red cardboard. *Ex* **HB**.

Notes: Blackwelder (1946: 643) records this species under *Lexiphanes* Gistel 1850 *nom. nov. pro Monachus* Déjean 1835, *non* Fleming 1822 *nec* Kaup 1829. Leng (1918: 208) proposed *Monachus* as a replacement name.

florianoi [*Himatidium*]. Bondar 1942: 38-39. Brasil: Bahia: Bonfim, and Feira de Santa Ana, 115 **cotypes** in **BC, MZSP, FMNH**.

One **synt.** «Brasil / E° Bahia / Mun. Bonfim / F. Mendonça leg. / Coll. Martínez» handwr.; «Cotypus» print. on dark red paper, black frame; «Himatidium / florianoi / Bondar» handwr. on white paper, black frame; «Imatidium / Florianoi / Det. Bondar» handwr. on white paper with remainings of a black frame.

Notes: *Imatidium* is the correct spelling. Borowiec (1999: 184) refers this species to the genus *Demotispa*.

gemignanii [*Stenispa*]. Monrós & Viana 1947: 167-168, pl. ii: 7. Misiones Prov.: Concepción: Santa María, **holot.** ♂, **allot.** ♀ in **MACN**, 80 **parat.** in **MC, MVC**.

Holot. ♂, **allot.** ♀ 1 **parat.** «Misiones Argentina / Dep. Concep. Sta. Maria / M.J. Viana» print.; «51113» handwr., red frame; «Holotypus [Allotypus, Paratypus]» print. on red [red, yellow] cardboard; «Stenispa / gemignanii / Monrós-Viana / Holotipo ♂ [Alotipo ♀, Paratipo]» handwr. on red [red, yellow] cardboard, the parat. in addition «Dibujado» [drawn] handwr. 5 **parat.** similar labels but «X-1946» and «51192» handwr.

Note: Staines & Staines (1997: 9) mention that sixteen paratypes of this species are located in **USNM**.

graminis [*Coptocycla*]. Burmeister 1870: 281. Tucumán Prov. and «agro Bonaerensi».

Two **synt.**, pinned «Tucuman» and «Buen. / Ayres» respectiv., print. on green paper, the last one «653» print. One of us (AOB) added «Coptocycla / graminis / Burmeister 1870 / Syntypus» handwr. on red cardboard. *Ex* **HB**.

Notes: A synonym of *Metriona* (*Metriona*) *tenella* (Klug 1829), *sub Cassida*, after Spaeth (1914: 137). The spec. is labelled «*Plagiometriona*» handwr. with pencil by Viana.

guarani [*Chlamisus*]. Monrós 1952b: 627-628, f. 151. Corrientes Prov.: Santo Tomé *leg.* Pellerano X.1925, **holot.** in **MACN**.

Holot. «♀», «S. Tomé / Corrientes / 10-925» print., date handwr., black frame; «53394» handwr., red frame; «Holotypus» print. on red cardboard, black frame; «Chlamisus / guarani / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink cardboard. *Ex* **GPC**.

hepperi [*Epitrix*]. Bryant 1951: 940, f. 3. [Córdoba Prov.:] Río Cuarto III.1948 *leg.* Hepper on potato plants; Buenos Aires Prov.: San Miguel *leg.* Hepper; Balcarce II.1948 *leg.* Hepper; SE of Buenos Aires Prov. XII.1945, 22 spec., *leg.* Hepper.

Two **synt?**, **parat. ?** glued to cards, on one pin, three circular «Paratype» labels with yellow border; «Rio 4° / s/papa 1940» handwr.; «Com. Inst. Ent. / Coll. N°. 12021» print., number handwr.; «53426» handwr., red frame; «Epitrix / hepperi / Bryant [handwr.] / G.E. Bryant det. [print.]» on white paper.

immersa [*Cassida*]. Spaeth 1909: 389-390. [Santa Fe Prov.?]: Rosario; Brasil; Buenos Aires, coll. Clavareau; Buenos Aires *ex* **BRC** (MLP); [Uruguay]: Montevideo *ex* **MCSN**.

One **synt.** «Rep. Argentina / Prov. Buenos Aires / 4.XII.1895 / C. Bruch» print., date handwr.; «Typus» print. on pale green paper; «Cassida / immersa / Spth.» handwr. by Bruch, red frame; «Cassida / immersa typ! [handwr.] / Spaeth det. [print.]» cut. *Ex* **BRC**.

inaurata [*Mesomphalia*]. Burmeister 1870: 275-276. Tucumán, «Männchen» [male].

Two **synt.** «Tucuman» print. on green paper. On the bottom of the drawer a label reads «*inaurata* Nob. / Rep. Arg. Br.» handwr. by Burmeister; «Col. Antigua» print.. *Ex* **HB**.

Notes: Recorded as *Pseudomesomphalia inaurata* by Spaeth (1914: 38). Barber & Bridwell (1940: 9) considered *Pseudomesomphalia* as a synonym of *Stolas*. There are two further spec. labelled «4174» [handwr.] and «Tucuman» [print. on green paper]. In the old general register of the Museum, the entry 4174 corresponds to a large ensemble of insects collected in Tucumán by Dinelli, entered in 1898.

infirmior [*Probaenia*]. Weise 1906: 225. Buenos Aires Prov. XI.1903.

One **synt.** «Typus» print. on pale green paper; «Rep. Argentina / Prov. Buenos Aires / 11.1903 / C. Bruch» print., date handwr.; «Tigre» handwr. by Bruch; «51017» handwr., red frame; «Probaenia / infirmior Weise - tipo» handwr. by Bruch, red frame; «Probaenia / infirmior m.» handwr., cut; «Probaenia / crenata / ab. nigripes / (Chap.) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales

[print.] [obverse] / X-1947 [handwr.] [reverse]» on white paper with a black frame. *Ex BRC*.

Notes: There is another spec. labelled «Cotypus» print. on pale green paper; «Rep. Argentina / Prov. Buenos Aires / 5.III.1905 / C. Bruch» print., date handwr.; «51018» handwr., red frame, not mentioned in the original description. It is not clear if it was intended to conform the type series (see at the third list below). Monrós & Viana (1947: 272-273, pl. xxii: 90) synonymized *P. infirmior* with *P. crenata* ab. *nigripes* (Chapuis 1877), an unavailable name, as it was proposed for an *aberratio*.

informis [*Chelymormpha reimoseri* subsp.]. Spaeth 1928: 3, footnote. Jujuy Prov.: Volcán, *ex BRC*; Catamarca Prov., *ex BRC*.

Two **synt.**, pinned, «Typus» print. on pale green paper; «Rep. Argentina / Prov. Catamarca / 3.IV.1907 [5.IV.1907] / C. Bruch» print., date handwr.; «Typus» print. on pale green paper. One of them, in addition «♀», «Spaeth det.» print.; «Chelymormpha / informis Sph - tipo» handwr. by Bruch, red frame; «Chelymormpha [print.] / informis m. ♂ type! [handwr.]» on white paper. One of us (AOB) added to both «Chelymormpha / reimoseri / informis / Spaeth 1928 / Syntypus» handwr. on red cardboard with a black frame. *Ex BRC*.

Note: Hincks (1950: 509) considers *Chelymormpha* as a synonym of *Cyphomormpha* Chevrolat.

inopinatus [*Chlamisus*]. Monrós 1952b: 629-620, f. 152. Corrientes Prov.: Santo Tomé, leg. Pellerano XI.1927, **holot.**, 5 **parat.** in **MACN**.

Holot., 4 **parat.** «S. Tomé / Corrientes / 11-927» print., date handwr., black frame; the parat. in addition «G. Pellerano» handwr.; «53392' handwr., red frame; «Holotypus [Paratypus]» printed on red [yellow] cardboard with a black frame; the holot. in addition «Chlamisus / inopinatus / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink cardboard. *Ex GPC*.

inornatus [*Megalopus vespa* var.]. Monrós 1947c: 211, pl. iii: 5. Tucumán, **holot.** in **BRC**.

Holot., pinned «Rep. Argentina / Prov. Tucumán / 27.11.1908 / C. Bruch» print., date handwr.; «Holotipo de la var.» handwr., red frame; «Megalopus / vespa / mihi / v. inornatus / mihi / F. Monrós det. 946» handwr. on yellow cardboard. *Ex BRC*.

Note: The name was described as a variety before 1960, and is therefore available.

jacobyi [*sub Jacobyi*] [*Megalopus*]. Bruch 1908: 716-717, 1 f. Salta, 1 spec.; Tucumán Prov.: Taff III.1908; Richter obtained several spec.

Two (three?) **synt.**, pinned. One of them «Rep. Argentina / Prov. Salta / 190_ / C. Bruch» print.;

«Typus» printed on pale green paper; «Megalopus / Jacobyi / m. tipo [handwr. by Bruch] / C. Bruch determ. [print.]». The other two «Rep. Argentina / Prov. Tucumán / 5.II.1908 [on one, the other III.1908] / C. Bruch» print., date handwr.; one of them «Typus» print. on pale green paper; one of us (AOB) added «Megalopus / Jacobyi / Bruch 1908 / Syntypus» [«Syntypus?»] handwr. on red cardboard, black frame. All *ex BRC*.

Notes: The type condition of the last spec. is dubious, as it lacks an original «Typus» label. Monrós (1947c: 208, 212-213, pl. 5: 4, f. 51e) recorded it under *Megalopus* (*Mucromegalopus*).

juncta [*Cephalodonta*]. Weise 1906: 222. Brasil VII.1901.

One **synt.** «Rep. Brasil / VII.1901 / C. Bruch» print., date handwr.; «Col. / C. Bruch» printed; «50932» handwr., red frame; «Typus» print. on red paper; «Cephalodonta / juncta / Weise - tipo» handwr. by Bruch, red frame; «Cephalodonta / juncta m.» handwr., cut; «Sceloenopla / (Sceloenopla) / pretiosa / Baly / Det. M. Viana [handwr. by Viana] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard with a black frame. *Ex BRC*.

Notes: Considered a synonym of *Sceloenopla pretiosa* (Baly 1858) by Uhmman (1937b: 206, 208-209, who examined a type in **ZMB**); recorded as *Sceloenopla* (*Sceloenopla*) *pretiosa* Baly by Monrós & Viana (1947: 186-187, pl. 23) who examined a spec. of *juncta* labelled «Typus» in **MACN**.

lacordairei [*Temnodachrys*]. Monrós 1954: 200, f. 30b. Jujuy, 1 **parat.** in **MACN**. **Holot.** from Jujuy Prov.: Ledesma in **FIML**; other **parat.** in **MC, APC**.

One **parat.** «Jujuy» handwr. on dark green paper, reverse white; «Paratipo» handwr. on white paper with a red frame; «7274» handwr., red frame; «Dachrys / lacordairei / mihi [handwr.] / F. Monrós det. 1951 [print.]» on pink paper.

laetificus [*Chalepus*]. Weise 1906: 224. Formosa II.1895.

One **synt.**, «Typus» print. on pale green paper; «Rep. Argentina / Gob. Formosa / 2.1895 / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «50970» handwr., red frame; «Chalepus / laetificus / Weise - tip.» handwr. by Bruch, red frame; «Chalepus laetificus W.» handwr., cut; «Xenochalepus / (Xenoch.) / faustus / laetificus / Weise / Det. M. Viana [handwr. by Viana] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. *Ex BRC*.

Note: Recorded as *Xenochalepus* (*s. str.*) *faustus* Weise ab. *laetificus* by Monrós & Viana (1947: 238-239, pl. xv: 59) who examined this syntype.

lanuginosa [*Urodera*]. Monrós 1954: 239-240, f. 35b. Santiago del Estero Prov.: Salado River 1 **parat.**; Santa Fe Prov.: Fives Lille, leg. Weiser, 1 **parat.**, both in **MACN** ex **BRC**. **Holot.**, **parat.** Santiago del Estero: Salado River in **MC**; 1 **parat.** in **APC**.

Two **parat.**, one of them «Sgo. del Estero / Río Salado / Wagner col.» print., black frame; the other «Fives Lille / S.F. Weiser» print. Both: «Paratipo» handwr., red frame, «Col. / C. Bruch» print., and «Urodera / lanuginosa / mihi [handwr.] / F. Monrós det. 1952 [print.]» on pink paper. *Ex* **BRC**.

Note: Moldenke (1981: 111) erected the new genus *Paraurodera* and mentioned that it is doubtful to place *Urodera lanuginosa* in it.]

liliacea [*Lema*]. Burmeister 1877: 54-55. Paraguay.

Two **synt.**, pinned, one of them «Paraguay» print. on dark green paper, the other without labels. One of us (AOB) added to both «Lema / liliacea / Burmeister / Syntypus» handwr. on red cardboard. *Ex* **HB**.

Note: Recorded by Monrós (1951: 476) as *Lema* (*Lema*) *liliacea* Burmeister = *L. quinquevittata* Pic 1941.

limbata [*Cephalolia*]. Pic 1928c: 4.

One **synt.** «Delta / Paraná Guazú / 29.11.929. Bosq» handwr. by Bruch; «Col. / C. Bruch» print.; «50910» handwr., red frame; «Typus» print. on red paper; «Cephalolia [*sic*] / limpata [*sic*] / Pic» handwr. by Bruch on white paper; «Cephalolia / limbata n. sp.» handwr., cut; «Himantidium / limbatum / (Pic) / Det. M. Viana [handwr. by Viana] / Museo Argentino de Ciencias Naturales [print.]» on white cardboard with a black frame. *Ex* **BRC**.

Notes: Recorded as *Himantidium limbatum* by Monrós & Viana (1947: 160-161, pl. v: 21) who examined the type series, and as *Cephaloleia limbata* by Descarpentries & Villiers (1959: 139) who report one parat. in **PC**. The type locality corresponds to the Paraná River Delta, in Buenos Aires Prov. *Cephaloleia* is the correct spelling.

llajtamaucanus [*Chlamisus hispidulus* subsp.]. Monrós 1951: 454, 455-456. Mendoza, 1 **parat.** ex **BRC**; La Rioja, 1 **parat.** ex **ABC**; Córdoba, 1 **parat.**, all in **MACN**. **Holot.** Santiago del Estero Prov.: Llajtamauca I.1944 in **MC**, **parat.** in **MC**, **JBC**, **USNM**, **MLP**, **MP**.

Two **parat.**, one of them «Rep. Argentina / Prov. Mendoza / 190_ / C. Bruch» print.; «Col. / C. Bruch» print., with red ink; «53375» handwr., red frame.

The other «Argentina / La Rioja» printed; «Col. / A. Breyer» print.; «53374» handwr., red frame. Both «Paratypus» print. on yellow cardboard with a black frame; «Chlamisus / hispidulus / llajtamauca / mihi [handwr.] / F. Monrós det. 1949 [print.]» on pink paper.

maculata [*Uhmannispa*]. Monrós & Viana 1947: 172-174, pl. vi: 24. Chaco Prov.: Fontana 5.III.1935 leg. Meyer, **holot.** in **MACN**. Chaco Prov., 1 **parat.** in **MLP**; Chaco Prov.: Puerto Tirol, leg. Daguerre 1 **parat.**

Holot. «Dibujado» [drawn], handwr.; «Argentina / Chaco» print.; «46859» handwr., red frame; «Holotypus» print. on red cardboard; «Uhmannispa / maculata / Monrós - Viana / Holotipo [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame.

Notes: A synonym of *Cephaloleia maxima* Uhmann, 1942. A parat. deposited in the Daguerre collection is now in the USNM (Staines & Staines (1997: 13).

martinezi [*Miocalaspis*]. Viana 1968: 8, 54, 60-63, 101, pl. iii: 16, pl. vi: 42. Bolivia: Cochabamba: Chapare: Locotal 1200 m a.s.l. leg. A. Martínez II.1952, **holot.** ♂, **allot.** ♀ in **MACN**. 1 ♀ **parat.** id. in **AMC**.

Holot. ♂, **allot.** ♀ «Bolivia / D° Cochabamba / Pcia. Chapare / Locotal. 1200 m / Coll. Martínez / Feb. 952» handwr.; «Holotypus», [«Allotypus»] print. on red cardboard, black frame; «Miocalaspis / martinezi / Viana / Holotipo ♂ [Alotipo ♀] [obverse] / M. Viana X-1968 [handwr., reverse]» handwr. on red cardboard. 1 **parat.** «La [?] 558(50) Agenysa sp.? El Palmar / 1600 m / Bolivia / Prov. Chapare / Dept. Cochabamba. 1952» handwr. with pencil, folded; «Paratypus» print. on yellow cardboard, black frame; «Miocalaspis / martinezi / Viana / Paratipo ♀ [obverse] / M. Viana X-1968 [reverse]» handwr. on yellow cardboard, black frame; the last one *ex* **AMC**.

martinezi [*Omocera*]. Viana 1964: 63-66, f. 1-4. Brasil: Minas Gerais: Serra do Cipó, Vao da Lagoa, leg. Martínez XII.1962, **holot.**, **allot.** 2 **parat.** in **MACN**, 1 **parat.** in **MVC**, 5 **parat.** in **AMC**.

Holot., **allot.**, 8 **parat.** «Brasil . E° Minas Geraes / Serra do Cipo / Vao da Lagoa / Coll. Martínez / Dic. 1962» handwr.; «Holotypus [Allotypus, Paratypus]» print. on red [red, yellow] cardboard, black frame; «Omocera / martinezi / Viana / Holotipo ♂ [Alotipo ♀, Paratipo] [obverse] / VI-1964 [reverse]» handwr. on red [red, yellow] cardboard; 5 of the parat. *ex* **AMC**.

mauliki [*Himatidium*]. Bondar 1941: 273-274. Brasil: Bahia: Cachoeira 5.V.1940; **typus** in **BC**, **cotypes** in **BM**.

One **parat.** «Brasil / E° Bahia / Mun. Cachoeira / Bondar leg. / Coll. Martínez / 5-V.1940» handwr.; «Cotype» print. on dark red paper, black frame; «Himatidium / mauliki / Bon» handwr. on white paper, black frame; «Imatidium / Mauliki / Det. Bondar» handwr., remainings of a black frame. *Ex AMC*.

Notes: The correct spelling is *Imatidium*. A synonym of *Cephaloleia bondari* Monrós, 1945 (*nom. novum*).

melochiae [*Chlamisus*]. Monrós 1952b: 529-530, 541, 551, 600-602, f. 64, 89, 116, 139. Entre Ríos Prov.: Concordia, leg. Daguerre, 2 **parat.** in **MACN**. **Holot.**, **parat.** in **FIML**; other **parat.** **FIML**, **MC**, **MVC**, **JBC**, **SCT**.

Two **parat.** «Entre Ríos / Concordia / Daguerre» print.; «Entre Ríos / Concordia / J.B. Daguerre» handwr.; «26323» handwr., red frame; «Paratypus» print. on yellow cardboard with a black frame; «Chlamisus / sphaeralcea / mihi [handwr.] / F. Monrós det. 1948 [print.]» on pink paper.

Note: Under the heading «Chlamisus melochiae» there are in the drawer two specimens from Concordia, Entre Ríos Province, Argentina. Both are rotulated «Paratypus», and one of them is rotulated also «Chlamisus sphaeralcea». At the Instituto Lillo, Tucumán, where the other types are housed, the specimens are also rotulated «sphaeralcea», not «melochiae». In the rather extensive paper of Monrós, *Chlamisus melochiae* is the only species collected on *Sphaeralcea* sp. (Malvaceae) and on *Melochia* sp. (Sterculiaceae), no other species come from any of these plants. Probably Monrós wished to name the species after a nourishing plant, selecting at first instance *sphaeralcea*, and shifted later to *melochiae*, but he failed to replace the labels from the specimens. Therefore I decided to hold the specimens as authentic, and we add to them an additional label reading «Chlamisus melochiae Monrós 1952. Acta zoologica lilloana 10: 600-602» print. on white paper.

meridionalis [*Saxinis*]. Monrós 1954: 258-260, f. 377-380. 2 **parat.** Jujuy, *ex BRC*; 2 **parat.** without locality data, all of these in **MACN**. **Holot.** ♂, **al-lot.** ♀., several **parat.** Córdoba Prov.: Pampa de Olaen I.1946 in **MC**, other **parat.** in **BM**, **USNM**, **MLP**, **DEI**, **MC**, **MVC**.

Two **parat.** «Rep. Argentina / Prov. Jujuy / 190_ / C. Bruch» print.; «Col. / C. Bruch» print.; «Paratipo» handwr. on white paper, red frame; «Saxinis / meridionalis / mihi [handwr. by Monrós] / F. Monrós det. 1951 [1952] [print.]» on pink paper.

missionensis [*Anisostena s. str.*]. Monrós & Viana 1947: 203, pl. xii: 45. Misiones Prov.: Dep. Concepción: Santa María, *leg.* Viana, 23 **cotypes** in **MACN**, **MC**, **MVC**.

Two **synt.** «Misiones - Argentina / Dep. Concep. Sta. María / M.J. Viana» print.; «51120» handwr., red frame; «Cotypus» print. on red cardboard with a black frame; «Anisostena / (Anisostena) / missionensis / Monrós - Viana - cotipo [handwr.] / Museo Argentino de Ciencias Naturales [print.]» on red cardboard, black frame. One of them «Dibujado» [drawn] handwr.

Notes: Staines (1993: 187-188) refers this species to his new subgenus *Anisostena* (*Apostena*). Two syntypes are deposited in the USNM.

negligens [*Amplipalpa*]. Weise 1905: 52. In a key; Buenos Aires.

One **synt.**, one **parat.** «Rep. Argentina / Prov. Buenos Aires / 24.V.1903 [21.V.1903] / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «50901 [50902]» handwr., red frame; «Typus» [«Cotypus»] print. on pale green paper; one of them «Amplipalpa / negligens / Weise - tipo» handwr. by Bruch, red frame; both «Oediopalpa / negligens / (Weise) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr., reverse]» on white cardboard, black frame.

Note: Recorded as *Oediopalpa negligens* by Blackwelder (1946: 717).

neivai [*Himatidium*]. Bondar 1940a: 205-209, f. 1-3. Brasil: Bahia: Agua Preta, **holot.** in **BC**, 19 **parat.** in **IIE**, **ERJ**.

One **parat.** «Brasil / E° Bahia / Agua Preta / P. Silva leg. / Coll. Martínez» handwr.; «Cotype» print. on dark red paper with a black frame; «Himatidium / neivai / Bondar» handwr. on white paper, black frame; «Imatidium / Neivai / Det. Bondar» handwr. on white paper, remainings of a black frame.

Notes: The correct spelling is *Imatidium*. Borowiec (1999: 185) refers this species to the genus *Demotispa*.

nigropicta [*Epitrix*]. Bryant 1951: 938-939, f. 1. [Buenos Aires Prov.]: Balcarce *leg.* Hepper II.1948, 3 spec. on potato plants.

One **synt.?** **parat.?**, «Paratype» printed on a yellow-margined disk; «ex planta de papa», «Balcarce II-1948 / H.C. Hepper», both handwr. by Hepper; «Com. Inst. Ent. Coll. no. 12021» printed, number handwr.; «53427» handwr., red frame; «Epitrix / nigropicta / Bryant [handwr.] / G.E. Bryant det. [print.]» on white paper.

Note: The spec. are rotulated as paratypes, but they could be syntypes.

nigrovittis [*Metallactus*]. Jacoby 1908: 855. Argentina: Chaco [perhaps a single spec., as only one measurement is given]

Holot.? **synt.?**, not even a type? «Rep. Argentina / Gob. Chaco / 190_ / C. Bruch» printed; «Cotypus» printed on pale green paper; «*Metallactus / nigrovittis / Jac.*» handwr. by Bruch, red frame. *Ex* **BRC**.

Note: The type condition is dubious, as the only identification label is handwr. by Bruch, not by Jacoby.

notaticeps [*Brachycoryna*]. Pic 1928c: 4.

Two **synt.** One of them «Typus» handwr. by Bruch on pale green paper; «Hualfin / Catam. 17.1.23» handwr. by Bruch; «Col. / C. Bruch» print.; «50996» handwr., red frame; «*Brachycoryna / notaticeps / Pic / Det. M. Viana* [handwr. by Viana] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. The other one «Typus» handwr. by Bruch on pale green paper; «La Cienaga / Catam. Wolters» handwr. by Bruch; «Col. / C. Bruch» print.; «50997» handwr., red frame. Both «*Brachycoryna / notaticeps / Pic*» handwr. by Bruch. *Ex* **BRC**.

octoguttatus [*sub octo-guttatus*] [*Griburius*]. Burmeister 1877: 65-66. [Entre Ríos Prov.]: Paraná.

Two **synt.**, pinned, one of them «Parana / Jan.» print. on green paper, the other without labels. One of us (AOB) added to both «*Griburius / octoguttatus / Burmeister 1877 / Syntypus*» handwr. on red cardboard. A label fastened to the bottom of the drawer reads «*octo - guttatus*» handwr. by Burmeister. *Ex* **HB**.

oyaguava [*Temnodachrys (Eudachrys)*]. Monrós 1954: 191-192, f. 297. Córdoba, 1 **parat.** in **BRC**. **Holot.**, **allot.** 1 **parat.** Misiones Prov.: Pindapoy, leg. Bosq, in **MC**.

One **parat.** «Rep. Argentina / Prov. Córdoba / 190_ / C. Bruch» print.; «Col. / C. Bruch» print.; «Paratipo» handwr. on white paper, red frame; «*Dachrys / oyaguava / mihi* [handwr.] / F. Monrós det. 1951 [print.]» on pink paper. *Ex* **BRC**.

pallipes [*Decatelia*]. Weise 1922: 31. Paraguay: Santa Trinidad X.1913 leg. Zürcher.

Holot., on a card, «Typus» print. on pale green paper; «Paraguay / Sa. Trinidad / IX.1913» print., date handwr.; «Col. / C. Bruch» print.; «51001» handwr., red frame; «*Decatelia / pallipes / Weise*» handwr. by Bruch, red frame; «*Decatelia / pallipes m.*» handwr., cut. *Ex* **BRC**.

Note: Recorded as *Paradecatelia pallipes* by Uhmman (1951: 334).

pallipes [*Temnodachrys complexa* ssp.]. Monrós 1954: 207-208. Corrientes Prov.: Santo Tomé X.1927 leg. G. Pellerano 1 **parat.** *ex* **GPC** in **MACN**. **Holot.** and several **parat.** Misiones Prov.: Posadas VII.1945 in **MC**; other **parat.** **FIML**, **MLP**, **MC**, **MVC**, **APC**.

One **parat.** «S. Tomé / Corrientes / 10-927» print., date handwr., black frame; «Paratipo» handwr., red frame; «*D. complexa / ssp. pallipes / mihi* [handwr.] / F. Monrós det. 1951 [print.]» on pink paper. *Ex* **GPC**.

parallela [*Stenispa*]. Pic 1930: 45. Buenos Aires Prov.: Rosas, leg. Daguerre, in **BRC** and **PC**. Types not formally designated.

Three **synt.** on cards, on 2 pins «Rosas - F.C.Sud / Provincia de Buenos Aires / Juan B. Daguerre» print.; «Col. / C. Bruch» print.; «50914» on the pin with 1, «50915» on the pin with 2, handwr., red frame; «Typus» print. on red paper on the pin with 1; handwr. by Bruch on pale green paper on the pin with 2; «*Stenispa / parallela / Pic*» handwr. by Bruch; «*Stenispa / parallela n.sp.*» handwr., cut; «*Stenispa / parallela / Pic / Det. M. Viana* [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. One of us (AOB) added «*Syntypus*» and «*Syntypi*» respectiv., handwr. on red cardboard. *Ex* **BRC**.

Notes: Descarpentries & Villiers (1959) state that the holotype is housed in the Muséum National d'Histoire Naturelle in Paris. Three specimens labelled as paratypes are deposited in the USNM. Staines & Staines (1997:17) consider all the specimens, those in Paris and those in Buenos Aires, as syntypes.

persimilis [*Griburius*]. Burmeister 1877: 66. Buenos Aires.

One **synt.**, pinned «Buen. / Ayres» print. on dark green paper. One of us (AOB) added «*Griburius / persimilis / Burmeister 1877 / Typus*» handwr. on red cardboard. *Ex* **HB**.

planicollis [*Lema*]. Burmeister 1877: 56. Paraguay, with var. *a* to *d*.

Six **synt.**, pinned on 5 pins, 1st and 4th pins without labels, 2^d, 3^d (with 2 spec.) and 5th pins «Paraguay» print. on dark green paper. One of us (AOB) added to all pins «*Lema / planicollis / Burmeister 1877 / Syntypi* [Syntypus]» handwr. on red cardboard. *Ex* **HB**.

Note: Synonymized with *Lema orbigny* (Guérin 1844) by Monrós (1947a: 169) along with *L. dorsalis* Frers 1922.

polichroma [*Lema*]. Monrós 1952a: 33-42, f. 1, 3-25. Salta, 2 **spec.** *ex* **HB**; Tucumán, 3 **spec.** *ex* **BRC**;

Tucumán Prov.: Tafí 1 **spec. ex BRC**; Santiago del Estero, 7 **spec. ex BRC**. Other **spec. MLP, FIML, MC, JBC**. Types not formally designated.

Twelve **synt.**, 3 of them «Rep. Argentina / Prov. Tucumán / 3.1.1908 [9.11.1908] / C. Bruch» print., dates handwr. 1 of them «Valle Tafí / Tucumán» handwr. by Bruch. 7 of them «Rep. Argentina / Pr. Santiago d. Estero / 190_ / C. Bruch» print., the first one of this series of 7, in addition, «Lema / (Quasilema) / polichroma / Monrós [handwr.] / F. Monrós det. 1952 [print.]», all of these **ex BRC**. 1 of them pinned, «Salta» handwr. on green paper, **ex HB**. One of us (AOB) added to all «Lema / polichroma / Monrós 1952 / Syntypus» handwr. on red cardboard.

Note: Recorded by Monrós (1957: 186) as a synonym of *Lema (Quasilema) latipennis* Pic 1941 = *L. latebifasciata* Pic 1951.

polyspilota [*Chelymorpha*]. Burmeister 1870: 278. [Uruguay]: Montevideo, *leg.* Arachavaleta.

One **synt.**, originally pinned, and later glued to a card by Viana, «Banda / orient.» print. on dark green paper; «Col. / Antigua» print.; «*polyspilota* Nob. / Rep. orient.» handwr. by Burmeister. One of us (AOB) added «*Chelymorpha / polyspilota / Burmeister / Typus*» handwr. on red cardboard. **Ex HB**.

Notes: The spec. was filed by Viana in the drawer under *Anacassis cribrum* (Klug 1829) in the collection of MACN. Hincks (1950: 509) considered that *Chelymorpha* Chevrolat 1838 is a synonym of *Cyphomorpha* Hope [1840]. With «Banda Oriental» Uruguay is meant.

porcata [*Lema*]. Burmeister 1877: 56-57. Paraguay, 1 **spec.**

Two **synt.**, pinned, one of them «Paraguay» printed on dark green paper, the other without labels. One of us (AOB) added «Lema / porcata / Burmeister 1877» and «Syntypus» handwr. on red cardboard. **Ex HB**.

Notes: The second spec. could not even be a type, as Burmeister mentions only one spec.. Monrós (1948: 212) suggests this could be a variety of *L. orbigny* (Guérin 1844).

porteri [*Ernoporus*]. Brèthes 1928: 213-214. Chile: Quillota, *leg.* Porter.

Two **synt.** «Quillota / 5.VIII.1894 / C.E. Porter», «*Ernoporus / Porteri / Brèthes*», «type! [type!!]», handwr., the 1st one with a small square piece of red paper. One of us (AOB) added to both «Syntypus» handwr. on red cardboard. A slide «*Ernoporus Porteri Brèthes - type! - Chili - Porter leg. Quillota*», handwr. by Brèthes, *sub* E.10 in slide collection.

Note: Monrós (1959: 31) recorded it as a synonym of *Ernoporus splendida* (Philippi), transferred from *Oyarzuna*.

proxima [*Lema*]. Burmeister 1877: 54. Paraguay

Four **synt.**, pinned on 3 pins, 1st (with 2) and 3^d pins «Paraguay» print. on green paper, 2^d pin without labels. One of us (AOB) added to all «Lema / proxima / Burmeister 1877 / Syntypi [Syntypus]» handwr. on red cardboard. **Ex HB**.

Notes: Monrós (1947a: 169) put *paraguayensis* de Borre, and *paraguensis*: Clavareau in Schenking as synonyms of *proxima*. Monrós (1951: 476) included the species in *Lema (Quasilema)*, and put *L. maculipes* Pic as a synonym.

proxima [*Stenispia*]. Monrós & Viana 1947: 169-170, pl. ii: 9. Corrientes Prov.: Nueva Valencia in MACN; Entre Ríos Prov.: Paraná Bravo River in GKC. 14 **cotypes** in MACN, MC, AMC, MVC, GKC.

Two **synt.**, one of them «Corrientes / Nueva Valencia / M. Viana 1947» handwr.; «51112» handwr., red frame; the other one «Dibujado» [drawn] handwr.; «R. Bravo (Delta) / E. Ríos 6/2/43» handwr., black frame; «51111» handwr., red frame. Both «Cotypus» print. on red cardboard; «*Stenispia / proxima / Monrós - Viana / Cotipo* [handwr.] / Museo Argentino de Ciencias Naturales [print.]» on red cardboard.

Notes: Gaedicke & Döbler (1971: 358) report two synt. from Entre Ríos Prov. in DEI. Under «R. Bravo» the Paraná Bravo Stream is meant. Staines & Staines (1997:18) mention that seven specimens from Monrós collection are in the USNM.

quadriplagiata [*Epitrix*]. Bryant 1951: 939-940, f. 2. [Buenos Aires Prov.]: Balcarce II.1948, 9 spec. *leg.* Hepper; La Rioja Prov.: Patquía XII.1932, 2 **spec.** on potato plants.

Two **synt.?, parat.?**, on cards, on 1 pin, «Paratype» on 2 disks with yellow border; «ex hojas de planta de papa» [from leaves of potato plants], «S. Miguel / BA. III.48 / H.C. Hepper», handwr. by Hepper; «Com. Inst. Ent. / Coll. no. 12021» print., number handwr.; «53428» handwr., red frame; «*Epitrix / quadriplagiata / Bryant* [handwr.] / G.E. Bryant det. [print.]» on white paper.

Notes: San Miguel was not mentioned in the original description, but otherwise the labels seem authentic. The spec. are retulated as paratypes, but they could be syntypes.

quinquenotata [*Mecistomela (Coraliomela) thoracica* var.]. Berg 1900: 255. Paraguay, and [Argentina:] Misiones Prov.; in MACN.

One **synt.**, pinned, «Parag.» handwr. on green paper, reverse white; «Col. / Antigua» print.;

«51104» handwr., red frame; «Typus» print. on red paper; «var. quinquemaculata / Berg» handwr. by Berg on yellowish paper; «Coraliomela / thoracica / ab.: quinquemaculata / (Berg) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947» [handwr.] [reverse]» on white cardboard with a black frame. One of us (AOB) added «Syntypus» handwr. on red cardboard.

Note: Recorded as *Coraliomela quadrimaculata* var. *quinquenotata* by Fischer (1935: 286), and as *Coraliomela thoracica* ab. *quinquenotata* by Monrós & Viana (1947: 181-182, pl. X: 32),

rectecarinata [*Aulacochlamys*]. Monrós 1952b: 658-661, f. 172 a-c. Corrientes Prov.: Santo Tomé leg. Pellerano, 3 **parat.** in **MACN**. **Holot.**, Tucumán Prov.: San Javier 3.XII.1944 Golbach leg., in **FIML**, other **parat.** in **MC**.

Three **parat.** «S. Tomé / Corrientes / 2-925 [on one, the other two without date]» print., black frame, date handwr.; one of them in addition «Santo Tomé / Corrientes / G. Pellerano» handwr.; «53403» handwr., red frame; «Paratypus» print. on yellow cardboard with a black frame; «Aulacochlamys / rectecarinata / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink [white] paper.

reducta [*Uroplata*]. Monrós & Viana 1947: 297-298, pl. xxv: 106. Santa Fe Prov.: San Justo, leg. Daguerre, 1 **cot.** in **MACN**, 1 **cot.** in **JDC**.

One **synt.** «Dibujado» [drawn] handwr.; «Santa Fe / San Justo / 3.XI.942 / Daguerre» handwr. by Daguerre; «51155» handwr., red frame; «Uroplata / (Codiohispa) / reducta / Monrós-Viana / Cotipo [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white paper with a black frame.

Note: Described from two syntypes, the other specimen is from the Daguerre collection, now in the USNM (Ward *et al.*, 1976; Staines & Staines 1997: 18).

ruficollis [*Psatyrocerus*]. Brèthes 1928: 206. Chile, leg. Porter.

One **synt.** «Psatyrocerus / ruficollis Brèthes / Chili. Porter» handwr. on a big square card with rounded corners; «Col. / J. Brèthes» print.. One of us (AOB) added «Typus» printed on red cardboard.

rufipes [*Cephalolia*]. Pic 1929: 182. Brasil, *ex BRC*.

Holot. «Rep. Brasil / III.1901 / C. Bruch» print., date handwr.; «Col. / C. Bruch» printed; «50913» handwr., red frame; «Typus» print. on red paper; «Cephalolia (*sic*) / rufipes / Pic» handwr. by Bruch, green frame; «Cephalolia (*sic*) / rufipes n. sp.» handwr., cut. *Ex BRC*.

Note: The correct spelling is *Cephaloleia*.

rufitarsis [*Cistudinella*]. Spaeth 1905: 98-99. Brasil, leg. Natterer, in **NHMW**; Brasil in **MRB** and **SC**.

One **synt.?**, pinned «Rep. Brasil / 16.II.1901 / C. Bruch» print., date handwr.; «Cotypus» print. on pale green paper; «Cistudinella / rufitarsis / Spth» handwr. by Bruch, red frame; «Cistudinella / rufitarsis m. [handwr.] / Spaeth det. [print.]», cut. *Ex BRC*.

Note: No reference to **BRC** was made in the original description, but otherwise the type condition seems authentic.

saucius [*Monachus*]. Burmeister 1877: 63-64. [Uruguay]: Montevideo and [Argentina]: Buenos Aires.

Two **synt.**, one of them «Buen. / Ayres» print. on green paper, the other «saucius / Nob.» handwr. by Burmeister. One of us (AOB) added to both «Monachus / saucius / Burmeister 1877 / Syntypus» handwr. on red cardboard. *Ex HB*.

Note: Recorded by Blackwelder (1946: 644) under *Lexiphanes* Gistel 1850 *nom. nov. pro Monachus* Déjean 1835 *et* Chevrolat 1837, *non* Fleming 1822 *nec* Kaup 1829.

seabrai [*Goniochenia* (*Baranosa*)]. Viana 1966: 115-119, f. 1, 2. Brasil: Benjamin Constant, **holot.** ♂, **allot.** ♀, **parat.**; Brasil: Acre, **parat.**, in **CSC**. Other **parat.** in **MF**, **DC**.

Five **parat.**, one of them «Brasil / Benj. Constant / Rio Javary / alto Amazonas 10.1942 / Dirings.» print., date handwr.; «Coll. Dirings. / S. Paulo. Brasil / 748» print.. Two of them «Puerto Walter / Acre. Bras. 56» print.; «Museum Frey / Tützing» print.. Two of them «Benjamin Constant / Am. Brasil. XI.1962. A. Silva col.» handwr. All «Paratypus» print. on yellow cardboard, black frame; «Goniochenia / (Baranosa) / seabrai / Viana / Paratipo [obverse] / M. Viana / X-1966 [reverse]», handwr.

semipurpureus [*Metallactus*]. Jacoby 1908: 851-852. Brasil; one of the **spec.**, received from C. Bruch, **MLP**, without locality label.

One **synt.?**, **parat.?** «Cotypus» print. on pale green paper; «Metallactus / semipurpureus / Jac.» handwr. by Bruch, red frame. *Ex BRC*.

Note: Two spec. were mentioned, but it is not clear if the term «Cotypus» on the second one refers to a syntype or to a paratype.

serjaniae [*Exema*]. Monrós 1952b: 650-653, f. 161, 168. Tucumán 1889, 1 **parat.** *ex BRC*. **Holot.** ♂ Salta: Orán: Agua Blanca 24.XI.1948 leg. Monrós, in **FIML**, **parat.** in **FIML** and **MC**.

One **parat.** «Rep. Argentina / Prov. Tucumán / XI.1899 / C. Bruch» print., date handwr.; «Col. / C.

Bruch» print. with red ink; «53402» handwr., red frame; «Paratypus» print. on yellow cardboard; «Exema / serjaniae / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink paper.

Note: Chûjô (1940) synonymized *Exema* with *Chlamisus*.

sidae [*Chlamisus*]. Monrós 1952b: 596-599, f. 88, 115, 138. Tucumán, 1 **parat.**; Tucumán Prov.: Famaillá 20.I.1921, 1 **parat.**; Corrientes, 1 **parat.**, all three ex **BRC** in **MACN**. **Holot.** Salta Prov.: Coronel Moldes II.1945, in **MC**; **parat.** in **FIML**, **MP**, **CMSM**, **MNH**, **EEAT**, **SCT**, **MLP**, **MC**, **MVC**, **APC**, **JBC**.

Four **parat.**, one of them «Rep. Argentina / Prov. Tucumán / 1-1908 / C. Bruch» print., date handwr., «Col. / C. Bruch» print. with red ink, «53381» handwr., red frame. The 2^d one «Famaillá / Tucumán / 20.I.1921» handwr. by Bruch, «Col. / C. Bruch» print. with red ink; «53382» handwr., red frame. The 3^d one «Rep. Argentina / Prov. Corrientes / 190_ / C. Bruch» print., «Col. / C. Bruch» print. with red ink; «53383» handwr., red frame. The 4th one «Rep. Argentina / Prov. Tucumán / 11 [?] 1905 / C. Bruch» print., date handwr., «53384» handwr., red frame, «Jac. vid. 18n» handwr. All: «Paratypus» print. on yellow cardboard, «Chlamisus / sidae / mihi [handwr.] / F. Monrós det. 1948 [print.]» on pink paper: 1 **parat.** ex **AMC** «Argentina / Salta / Orán / Martínez / En. 945» handwr., «Paratipo» handwr. on white paper, red frame, «Ch. / sidae / Monrós [handwr.] / F. Monrós det. 1952 [print.]» on white paper, with remainings of a black frame.

smaragdina [*Ischiopachys empyrea* subsp.]. Monrós 1954: 266. Salta, 2 **parat.**, [Salta Prov.:] Senillosa, km 1352, 2 **parat.**, both ex **BRC**. **Holot.** Jujuy city II.1945, in **MC**. 1 **parat.** in **USNM**.

Two **parat.**, pinned «Salta» handwr.; 1 **parat.**, pinned «Salta km 1352 F.C.C.N.A.» handwr. 1 **parat.**, pinned «Salta - Senillosa - km 1352!» handwr. All: «Col. / C. Bruch» print., «Paratipo» handwr. on white paper, red frame, «I. empyrea / ssp. smaragdina / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink paper.

sordidulus [*Chlamisus*]. Monrós 1952b: 614-618, f. 94, 119, 146. Tucumán, *leg.* Girard III.1914, 2 **parat.**; Chaco Prov.: Charata, *leg.* Bosq, 1 **parat.**, ex **BRC**; Chaco Prov: Resistencia 4 **parat.**; Misiones Prov.: dept. Concepción: Santa María, *leg.* Viana several **parat.**; Corrientes, 4 **parat.** ex **BRC**; Corrientes Prov.: Santo Tomé, 12 *parat.* ex **GPC**, all in **MACN**. **Holot.** Tucumán, *leg.* Golbach 3.XII.1944, in **FIML**. Other **parat.** in **FIML**, **USNM**, **GM**, **MPA**, **MLP**, **MC**, **APC**, **MVC**, **AMC**, **JBC**, **SCT**.

Twenty-six **parat.**, on 17 pins. Spec. 1st, 2^d «Tucumán / C. Bruch / I.1907» handwr., «Col. / C. Bruch» print. with red ink, «53398» handwr., red frame. Spec. 3^d, 4th «Tuc. 11/1914 / [?] not legible» handwr. Spec. 5th «Rep. Argentina / Prov. Tucumán / I.1907 / C. Bruch» print., date handwr., «Col. / C. Bruch» print., «53398» handwr., red frame. Spec. 6th through 9th «Argentina / Chaco» handwr., «32170» handwr., red frame. Spec. 10th «Rep. Argentina / Gob. Chaco / 190_ / C. Bruch» print., «Charata / X-1924. Bosq» handwr. by Bruch, «Col. / C. Bruch» print. with red ink, «53394» handwr., red frame. Spec. 11th through 14th, on 2 pins, «Rep. Argentina / Prov. Corrientes / 190_ / C. Bruch» print., «Col. / C. Bruch» print. with red ink, «53400» handwr., red frame. Spec. 15th through 18th, on 3 pins «S. Tomé / Corrientes» print., with different handwr. dates, «53401» handwr., red frame. Spec. 19th through 26th «Santo Tomé / Corrientes» print., with different handwr. dates; «53401» handwr., red frame. All: «Paratypus» print. on yellow cardboard, «Chlamisus / sordidulus / mihi [handwr.] / F. Monrós det. 1949 [print.]» on pink [some, other white] paper.

spaethi [*Himatidium*]. Bondar 1941: 274-275. Brasil: Bahia: Pituba 12.V.1940. **Holot.** in **BC**, 13 **parat.**

1 **parat.** «Brasil / E° Bahia / Pituba / Bondar *leg.* / 12-V-1940» handwr., «Cotyplus» print. on dark red paper, black frame, «Himatidium / spaethi / Bondar» handwr. on white paper with a black frame, «Imatidium / spaethi / Det. Bondar» handwr. on white paper, remainings of a black frame.

Note: *Imatidium* is the correct spelling.

sparsa [*Bruchia*]. Weise 1906: 227. Buenos Aires Prov.: La Plata 10.XI.1903.

Holot., «Typus» print. on pale green paper, «Rep. Argentina / Prov. Buenos Aires / 10.XI.1903 / C. Bruch» print., date handwr., «Col. / C. Bruch» print., «50995» handwr., red frame, «Bruchiella / sparsa / Ws.» handwr. by Bruch, red frame, «Bruchi / sparsa» handwr., cut, «Bruchia / sparsa / Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame.

Notes: Monrós & Viana (1947: 259-260, pl. xvii: 68) examined this type in **MACN**. Descarpentries & Villiers (1959) did not mention the genus.

striolatus [*Chlamisus*]. Bokermann 1964: 65-67, f. 1-5. **Holot.** ♂ and **parat.** ♂ Mato Grosso: Cuiabá 7.XII.1962, in **WBC**; **parat.** in **MG**, **CM**, **CSC**.

One **parat.** «Coleção / Bokermann» print. on red paper, black frame, «Cuiabá / M. Grosso - Brasil

/ 7.XII.1962 / Werner col.» handwr., black frame; «2211» typed, «Chlamisus / striolatus / paratipo ♂» [handwr.] / Bokermann det. 1963 [print.] on red paper, black frame. *Ex AMC*.

subaenea [*Paria*]. Jacoby 1900: 510. La Plata, several **spec.** received from Mons. Clavareau, Brussels.

Three **synt.** on cards, on one pin, «Rep. Argentina / Prov. Buenos Aires / 190_ / C. Bruch» print.; «Cotypus» print. on pale green paper, «*Paria* / *subaenea* / Jac.» handwr. by Bruch, red frame; «*Paria* / *subaenea*» handwr., cut.

Note: Bechyné (1953: 121, 272) downgraded the species to an *aberratio* of *Periparia boggianii*, stating that they differ only by color, a quite variable feature.

subaenescens [*Cryptocephalus*]. Jacoby 1908: 843. Tucumán, in **MLP** and author's coll.

One **synt.** «Rep. Argentina / Prov. Tucumán / 190_ / C. Bruch» print., «Cotypus» print. on pale green paper, «*Cryptocephalus* / *subaeneus* / Jac.» handwr. by Bruch, red frame, *ex BRC*.

sulcatifrons [*Stenispa*]. Pic 1928b: 101. Corrientes Prov.: San Roque II.1920, *leg.* Bosq, in **BRC**.

Holot.? **synt.?**, «Dibujado» [drawn] handwr., «Corrientes / San Roque / II-920 - Bosq» handwr. by Bruch, «Col. / C. Bruch» print., «50916» handwr., red frame, «Typus» print. on red cardboard, «*Stenispa* / *sulcatifrons* / Pic» handwr. by Bruch, green frame, «*Stenispa* / *sulcatifrons* n.sp.» handwr., cut, there are some other illegible traits; «*Stenispa* / *sulcatifrons* / Pic / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print., obverse] / X-1947 [handwr.] [reverse]».

Notes: Pic did not mention how many spec. he examined, but the only repository recorded is **BRC**, where a single spec. is kept. Descarpentries & Villers (1959) state that there is no type in **PC**. Moreover, this spec. was labelled «Typus», not «Cotypus» by Bruch. So the holot. condition could be inferred. Monrós & Viana (1947: 166, 167, pl. ii: 10) examined the spec.

sympathica [*Temnodachrys*]. Monrós 1954: 202-203, f. 308, 314. Córdoba: Alta Gracia: La Granja, 3 **parat.** *ex BRC*; 1 **parat.** without locality label, both in **MACN**. **Holot.** Córdoba: Calamuchita, *leg.* Viana XII.1938, in **MC**. Other **parat.** in **JBC**, **APC**, and **MC**.

Three **parat.** on cards, on 1 pin, «Alta Gracia, La Granja / Sierras de Córdoba / XII-921. C. Bruch *leg.*» print., date handwr., «Col. / C. Bruch» print.. 1 **parat.**, pinned «17235» handwr., red frame. Both: «Paratipo» handwr. on white paper, red frame, and

«Dachrys / sympathica / mihi [handwr.] / F. Monrós det. 1951 [print.]» on pink paper.

Note: In the registration book of the Entomological Division of MACN the entering 17235 refers to an assemble of insects collected by A. Pozzi and A. Zotta during a trip to Jujuy Prov., XI-XII.1925.

tandilensis [*Chalepus*]. Bruch 1933: 220-224, f. 3, pl. iii: 6. [Buenos Aires Prov.:] Tandil: Sierra de las Animas XII.1930 (the 'typical' spec., 15.X.1932 a 'later' spec.), all *leg.* Koehler.

One **synt.** «Typus» and «Foto» handwr. by Bruch on pale green paper, «Tandil / Sierra d.l. Animas / P. Köhler. XII-930» handwr. by Bruch, «Col. / C. Bruch» print., «50971» handwr., red frame, «Ch. (*Xenochalepus*) / *tandilensis* / Bruch [handwr. by Bruch] / C. Bruch determ. [print.]» on white paper, black frame, «*Xenochalepus* / (*Xenochalepus*) / *tandilensis* / Bruch / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. *Ex BRC*.

Notes: No type was formally designated in the original description. A syntype from the Daguerre collection is now in the USNM (Ward et al 1976). Gaedicke & Döbler (1971: 361) report a synt. in **DEI**. Staines & Riley (1994: 219) refer *Chalepus tandilensis* to the subgenus *Xenochalepus*. Monrós & Viana (1947: 240-241, pl. xvii: 63) upgraded the subgenus *Xenochalepus* to the generic rank.

tesselata [*Poecilaspis*]. Burmeister 1870: 276. Tucumán.

One **synt.** on a card, but originally pinned, «Tucumán» print. on green paper, «Col. / Antigua» print., «Typus» print. on red cardboard; «*tesselata* Nob.» handwr. by Burmeister on a label fastened to the bottom of the drawer. *Ex HB*.

Note: Recorded under subgenus *Poecilaspis* by Spaeth (1914: 47); and under genus *Botanochara* by Blackwelder (1946: 742).

trinotata [*Mecistomela* (*Coraliomela*) *thoracica* var.]. Berg 1900: 255. Paraguay, in **MACN**.

Holot., pinned, «Paraguay» print. on green paper, «Col. / Antigua» print., «51113» handwr., red frame, «Typus» print. on red paper, «*trinotata* Berg» handwr. by Berg on yellowish paper, «*Coraliomela* / *thoracica* / ab: *trinotata* (Berg) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard.

Note: Recorded as *Coraliomela thoracica* ab. *trinotata* by Monrós & Viana (1947: 180-181, pl. x: 31) who examined this spec.

tucumana [*Cephalolia*]. Weise 1904: 439. Tucumán IX.1897, C. Bruch.

2 **synt.** on cards, on 1 pin, «Rep. Argentina / Prov. Tucumán / X.1897 / C. Bruch» print. date handwr., «Col. / C. Bruch» print., «50903» handwr., red frame, «Typus» print. on red paper, «Cephalolia / tucumana / Weise - tipo» handwr. by Bruch, red frame, «J. Weise determ. 1904» print., «Cephalolia / tucumana / Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.]» on white cardboard, black frame. **Ex BRC**.

Notes: Blackwelder (1946: 720) recorded the species under *Cephaloleia*, which is the correct spelling. Monrós & Viana (1947: 163-164, pl. iv: 16) put *C. saccharina* Maulik 1929 as a synonym.

tucumana [*Octhispa*]. Weise 1922: 31-32. Tucumán 1100 m a.s.l., 28.I.1905, **ex BRC**.

Holot., «Typus» print. on pale green paper, «Argentina / Prov. Tucumán / 1100 m 28/I 1905 / Steinbach» print., date handwr., «Col. / C. Bruch» print., «51054» handwr., red frame, «Octhispa / tucumana / Ws.» handwr. by Bruch, red frame, «Octhispa / tucum» handwr., cut, «Octhispa / fossulata / Chap. / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame.

Note: Monrós & Viana (1947: 307-308, pl.xxvii: 119) examined this spec., and synonymized *O. tucumana* with *O. fossulata* Chapuis 1877.

tucumanensis [*Cryptocephalus*]. Jacoby 1908: 837 Argentina: Tucumán, in **MLP** and author's coll.

One **synt.** «Rep. Argentina / Prov. Tucumán / 15.VII.1900 / C. Bruch» print., date handwr., «Cotypus» print. on pale green paper, «Cryptocephalus / tucumanensis / Jac.» handwr. by Bruch, red frame. **Ex BRC**.

tucumanus [*Chlamisus*]. Monrós 1952b: 622-625, f. 92, 117, 149. Tucumán 20.I.1907, 4 **parat.**; *id.* but 10.XI.1907, 2 **parat.**; *id.* but 14.IX.1929, *leg.* Box, 1 **parat.**; *id.* but *leg.* Girard, 3 **parat.** All of them **ex BRC** in **MACN**. **Holot.** ♂ Tucumán: Tafi Viejo, 1914, **allot.** ♀ Tucumán, *leg.* Girard 1914, several **parat.** in **FIML**, other **parat.** in **MC** and **SCT**.

Four **parat.**, «Rep. Argentina / Prov. Tucumán / 20 I 1907 [on three, 10 II 1907 on one] / C. Bruch» print., date handwr., «Col. / C. Bruch» print. with red ink, «53390 [on three, 53387 on one]» handwr., red frame. 3 **parat.** «Tuc. 1-1917 Girard [on two, 1-1918 on one]» handwr., «16845» handwr., red frame. 1 **parat.** «Argentina / Tucumán / 14 Nov. 1929» print., date handwr., «H.E. Box / Collector» printed, «Col. / C. Bruch» print. with red ink,

«53388» handwr., red frame. All: «Paratypus» print. on yellow cardboard, and «Chlamisus / tucumanus / mihi [handwr.] / F. Monrós det. 1949 [print.]» on pink paper. 1 **parat.** **ex AMC** «R.A. Tucuman / Reserva Forestal / XI.949 / Wygodzinsky» handwr. on white paper, remainings of a black frame, «Paratipo» handwr., red frame, «Chlamisus / tucumanus / Monrós [handwr.] / F. Monrós det. 1952 [print.]» on white paper, remainings of a black frame.

unicolor [*Metallactus*]. Jacoby 1908: 853-854. Brasil, 1 **spec.** obtained from Bruch.

One **spec.** «Rep. Chile / 190_ / C. Bruch» print., «Cotypus» print. on pale green paper, «Metallactus / unicolor / Jac.» handwr. by Bruch, red frame.

Note: Chile was not included in the original description, but the country mentioned on the label may be a mistake of Bruch, or of Jacoby; Jacoby stated that he obtained one specimen from Bruch, but the label «Cotypus» suggests more than one spec. The status of the spec. is, at best, confuse.

unicolor [*Physonota*]. Burmeister 1870: 280. Mendoza.

One **synt.**, on a card, it has a pin hole, a card with a pupal exuvia, «Mendoza» print. on green paper, «Col. / Antigua» print., «649» print., «Typus» print. on red cardboard'. One of us (AOB) added «Physonota / unicolor / Burmeister 1870 / Typus» handwr. on red cardboard; «unicolor Nob. / Rep. Arg. Br.» handwr. by Burmeister on white paper, black frame, fastened to the bottom of the drawer.

Note: Recorded as *Anacassis fuscata* subsp. *unicolor* by Spaeth (1914: 50) and by Blackwelder (1946: 742).

varians [*Agathomerus*]. Monrós 1945: 146-149, f. 3. 2 **parat.** Tucumán **ex BRC** in **MACN**. 10 **cotypes** Salta: Coronel Moldes, Lerma Valley 1100 m a.s.l., I.1945, 8 of them in **MC**, 2 in **MLP**, on *Alternanthera phylloxeroides*.

Two **parat.** «Rep. Argentina / Prov. Tucumán / 190_ / C. Bruch» print., one of them «Agathomerus / quadrimaculatus / (J. Guérin) [handwr.] / F. Monrós det. 946 [print.]».

Notes: The type condition is dubious. Both spec. seem to be the ones mentioned by Monrós, but they lack both type and identification labels. In the same paper Monrós (1945: 155) synonymized *varians* with *quadrimaculatus* Guérin 1845, and presumably he removed the labels therefore. Monrós (1947c: 183-185, f. 43, pl. 5: 1) included *quadrimaculatus* in the subgenus *Mesagathomerus*.

vianai [*Stenispia*]. Uhmman 1938: 365-366. Buenos Aires Prov.: Tigre, *leg.* Viana XI.1937, 2 ♂, 3

♀ on *Scirpus giganteus*. **Holot.** and **allot.** in **JDC**.

Holot. «Buenos Aires / Argentina [printed] / Tigre XI-937 / M.J. Viana [handwr.]», «Col. / C. Bruch» print., «50918» handwr., red frame, «Holotypus» print. on red cardboard, «Stenispa / vianai / Uh. [handwr.] / Uhm. det. 38 [print.]» on white paper; «Stenispa / vianai / Uhm. / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» « on white cardboard, black frame.

Notes: Gaedicke & Doebler (1971: 362) reported 2 parat., ♂ and ♀, in **DEI**. Although Ward *et al.* (1976) mentioned that both holot. and allot. were deposited in the USNM, Staines & Staines (1997: 22) mentioned they have been unable to find the holot., the only specimen deposited is the allot..

vittata [*Microtheca*]. Weise 1922: 30. Santiago del Estero. Perhaps a single specimen, as only one measure is given.

One **synt.** «Rep. Argentina / Pr. Santiago d. Estero / 190_ / C. Bruch» print., «Typus» print. on pale green paper, «Microtheca/vitata/Ws.» handwr. by Bruch, red frame,

Note: Bechyné (1952: 62) synonymized this name with *M. punctigera* Achard 1917.

willineri [*Eugenysa*]. Viana 1968: 8, 16, 48-52, 100, pl. iii: 14, VI: 40. Perú: Montenegro: Marañón Stream 7.X.1961 leg. Williner, **holot.** ♂, **allot.** ♀. Perú: Tingo María X.1965 leg. Korytkowski, 1 **parat.** ♂, all in **MACN**. Another **parat** ♂ in **CMSM**.

Holot., allot., one **parat.** «Peru / Montenegro / Rio Marañón / Leg. Williner [obverse] / 7/X/1961 [reverse]» handwr. on white paper; «Holotypus [Allotypus, Paratypus]» print. on red [red, yellow] cardboard [obverse] / J.M. Viana X-1968 [handwr.] [reverse]; «Eugenysa / willineri / Viana / Holotipo ♂ [Alotipo ♀, Paratipo]» handwr. on red [red, yellow] cardboard.

willinki [*Temnodachrys* (*Eudachrys*)]. Monrós 1954: 188-189, f. 296. Chaco: Charata, leg. Daguerre 3 **parat.**; Santiago del Estero, 1 **parat.** ex **BRC** in **MACN**. **Holot.**, ♂, **allot.**, ♀ Chaco: Pampa del Indio in **FIML, MLP, BM, MC, JBC**.

Three **parat.** on cards, on 1 pin, «Argentina / Charata . Chaco» print., locality handwr. 1 **parat.** «Rep. Argentina / Pr. Santiago d. Estero / 190_ / C. Bruch» print., «Col. / C. Bruch» print.. All: «Paratipo» handwr. on white paper, red frame; «Dachrys / willinki / mihi [handwr.] / F. Monrós det. 1951 [printed]» on pink paper.

xerophila [*Temnodachrys*]. Monrós 1954: 201-202, f. 307. Santiago del Estero Prov.: Salado River, leg.

Wagner, 1 **parat.** in **BRC**; La Rioja, km 72, I.1920, 1 **parat.**; San Luis, 3 **parat.** in **BRC**, on 'quillo', all of these in **MACN**. **Holot.** La Rioja Prov.: Sanagasta, in **MC**. Other **parat.** in **FIML, MLP, BM, MC**.

One **parat.** on a card, with the left wing extended, «Rep. Argentina / Pr. Santiago d. Estero / 190_ / C. Bruch» print.. 1 **parat.** «La Rioja k 672 I.1920» handwr. on green paper, reverse white, «28410» handwr., red frame. 1 **parat.** «Argentina / La Rioja» print.. 3 **parat.** «Rep. Argentina / Prov. San Luis / 190_ / C. Bruch» print., «Col. / C. Bruch» print., 2 of them «sobre Quillo» handwr., 1 of these, in addition «Pnestes? / instabilis Lac.» handwr., red frame. All: «Paratipo» handwr. on white paper, red frame, «Dachrys / xerophila / mihi [handwr.] / F. Monrós det. 1951 [print.]» on pink paper.

UNAVAILABLE NAMES, AND NAMES NOT FOUND IN THE LITERATURE AND PRESUMABLY NOT PUBLISHED

amazonica [*Agenysa*]. Spaeth

1 **spec.** «Cotipo» print. on red paper, black frame; «Amazonas / Rio Yurua / E. Gasbe leg. / ano: 1902» handwr. and print.; «Agenysa / amazonica / nov. cot. ♀ / det. Fr. Spaeth 1927» handwr. and print.; «30003» print.; «Agenysa / caedemadens (Licht.) / Det. M. Viana» handwr.

Note: Recorded by Bruch (1914: 374) as *in litteris*; Blackwelder (1946: 751) just quotes Bruch's citation.

argentina [*Metriora*]. Spaeth

One **spec.** «Rep. Argentina / Prov. Buenos Aires / 20.IV.1894 / C. Bruch» print., date handwr.; «Typus» print. on pale green paper; «Spaeth det.» print.; «Metriora / Argentina / Spth.» handwr. by Bruch, red frame; «Metriora [printed] / argentina [handwr.]» on white paper. *Ex BRC*.

argentinae [*Chalcophana*]. Jacoby

Two **spec.**, pinned «Rep. Argentina / Prov. Catamarca / 20.II.1907 [10.II.1908] / C. Bruch» print., date handwr.; «Typus [Cotypus]» print. on pale green paper. One of them, in addition «Chalcophana / argentinae / Jac. type» handwr. by Bruch, red frame; both «Chalcophana / argentinae [rest ilegible]», handwr., cut. *Ex BRC*.

Note: Recorded by Bruch (1914: 374) as *in litteris*; Blackwelder (1946: 751) just quotes Bruch's citation.

jacobyi [*Galerucella*]. Brèthes

One **spec.** on a card (remounted, as it has a pin-hole), «S. Fe - L. Brochon» handwr.; «Repreparo / M. Viana / I-1960», handwr.; «Galerucella / Jacobyi / Brèthes» handwr. by Brèthes.

piceidorsis [*Cteisella*]. Spaeth

One **spec.** «Rep. Argentina / Prov. Tucuman / 190_ / C. Bruch» print.; «Spaeth det.» print.; «Cotypus» print. on pale green paper; «*Cteisella piceidorsis* Späth - Cotipo» handwr. by Bruch, red frame; «*Cteisella piceidorsis* m. cotyp!» handwr., cut. **Ex BRC.**

Note: Bruch (1914: 373) and Blackwelder (1946: 755), refer the name to Spaeth *in litteris*.

sculpturata [*Ctenochira*]. Spaeth

One **spec.**, pinned «Rep. Argentina / Gob. Misiones / XI.1909 / C. Bruch» print., date handwr.; «Cotypus» print. on pale green paper; «Spaeth det.» print.; «*Ctenochira sculpturata* Sph.» handwr. by Bruch, red frame; «*Ctenochira sculpturata* m. cotype» handwr., cut.

Note: Bruch (1914: 373) and Blackwelder (1946: 757), refer the name to Spaeth *in litteris*.

takasei [*Chlamisus*]. Bokermann

One **spec.** «Coleção / Bokermann» print. on dark red paper; «Takase / Sao Bernardo / 4-XII-1960 / Werner col.» handwr., black frame, «643» typed, «*Chlamisus / takasei / Paratipo* ♂ [handwr.] / Bokermann det. [print.]» on dark red paper, black frame. **Ex AMC.**

variolarius [*Chlamisus*]. Monrós

Two **spec.** One of them «S. Tomé / Corrientes / 11-924» print., black frame, date handwr., «♂», «Holotypus» print. on red paper. The other one «Santo Tomé - Corrientes / G. Pellerano» handwr., «53393» handwr., red frame, «♀», «Allotypus» print. on red paper; «*Chlamisus / variolarius / mihi* [handwr.] / F. Monrós det. 1950 [print.]» on pink paper.

Note: Recorded as a ♂ and a ♀ of *C. scortillus* from Santo Tomé in MACN by Monrós (1952b: 602). Perhaps he recognized the identity and decided not to publish the supposed new species.

SPECIMENS LABELLED AS TYPES
BUT NOT INCLUDED IN THE ORIGINAL
SERIES OR DESIGNATED IN A NON AC-
CEPTED TYPE CATEGORY

ferruginea [*Uroplata*]. Weise 1905: 88-89. Brasil: Jatahy, coll. Donckier.

One **spec.** «Typus» print. on pale green paper «Rep. Argentina / Prov. Tucumán / XI.1899 / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «51035» handwr., red frame; «*Uroplata / ferruginea* / Weise» handwr. by Bruch, red frame; «*Uroplata / ferruginea*» handwr., cut; «*Uroplata / (Codiohispa) bilineata* / Chap. / Det. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse]

/ X-1947 [handwr.] [reverse]» on white cardboard, black frame.

Notes: Tucumán was not mentioned in the original description; furthermore the identification label of Bruch does not mention «Tipo» as he used to do. Monrós & Viana (1947: 283-285, pl. xxvi: 115)

gracilis [*Uroplata*]. Weise 1905: 84-85. Brasil: Jatahy, col. Donckier.

One **spec.** «Cotypus» print. on pale green paper; «Paraguay / Sa. Trinidad / IX-1913» print., date handwr.; «51049» handwr., red frame; «*Octhispa / gracilis* / Ws» handwr. by Bruch, red frame; «*Octhispa / gracilis*» handwr., cut; «*Octhispa / gracilis* (Weise) / Det. M. Viana» [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]».

Notes: The spec. was taken after the publication date. Recorded under *Octhispa* by Weise (1911: 35).

infirmior [*Probaenia*]. Weise 1906: 225. Buenos Aires Prov. XI.1903.

One **spec.** labelled «Cotypus» print. on pale green paper; «Rep. Argentina / Prov. Buenos Aires / 5.III.1905 / C. Bruch» print., date handwr.; «51018» handwr., red frame; «*Probaenia / crenata* / ab. nigripes / (Chap.) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print., obverse] / X-1947 [reverse]» handwr. on white paper, black frame. **Ex BRC.**

Note: The spec. was not mentioned in the original description, and it is not clear if it was even intended to conform the type series, as a single date was recorded (see at the main list).

interrupta [*Galerucella*]. Jacoby 1904b: 523-524. Mendoza, 2 **spec.** in SKM.

One **spec.** «Rep. Argentina / Prov. Buenos Aires / 190_ / C. Bruch» print.; «Cotypus» handwr. by Bruch on pale green paper; «*Galerucella / interrupta* / Jac.» handwr. by Bruch, red frame. **Ex BRC.**

Notes: Buenos Aires was not mentioned in the original description. Considered a synonym of *Sarigueia subvittata* (Demay 1838) = *Galeruca fulvonigra* Fairmaire 1883 = *G. murina* Blanchard in Orbigny 1843 = *G. nigropicta* Boheman 1959, by Bechyné & Springlová de Bechyné (1970: 133).

interrupta [*Probaenia crenata* ab.]. Monrós & Viana 1947: 273, pl. xxii: 91. Tucumán Prov., **ex BRC**; Jujuy Prov., and Paraguay: Santa Trinidad, **parat.** in MACN. Holot. [repository not stated, presumably in MC], **parat.** in MC, MVC, etc., from Salta, Jujuy and Tucumán Prov.

Eleven **spec.** One of them «Tucuman» print. on green paper; «Col. / Antigua» printed; «51067»

handwr., red frame. Two of them «Rep. Argentina / Prov. Tucumán / XI.1899 [1.1.1904] / C. Bruch» print., dates handwr., «51014 [51015]» handwr., red frame; on one, in addition, «P. ornata / v. nigripes Chap.» handwr. by Bruch, red frame. Four of them, on 3 pins, «Argentina / Jujuy» print.; «17253» handwr., red frame. One of them «Argentina / Salta», print.; «33438'» handwr., red frame. Three of them, on 2 pins, «Argentina / Tucumán» print.; «51222 [16900]» handwr., red frame. All «Probaenia / crenata / ab: interrupta / Monrós-Viana. Paratipo [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]»

Note: The name is not available, as it was published as an *aberratio*.

ornatipennis [*Monachus*]. Jacoby 1908: 831-832. Tucumán Prov.

One **spec.** «Rep. Argentina / Prov. Buenos Aires / 1.1896 / C. Bruch» print., date handwr.; «Cotypus» print. on pale green paper; «Monachus / ornatipennis / Jac. 1907» handwr. by Bruch, red frame.

Notes: Buenos Aires was not mentioned in the original description. Only one measurement is given, suggesting that only one spec. was examined. Recorded as *Lexiphanes ornatipennis* by Blackwelder (1946: 643). *Monachus* Chevrolat 1837 is a junior homonym of *Monachus* Fleming 1822 and of *Monachus* Kaup 1829.

reimoseri [*Chelymorpha*]. Spaeth 1928: 3, footnote. Entre Ríos Prov.: Paraná, leg. Reimoser, some 30 **spec.** in **NHMW**.

One **spec.**, pinned, an antenna on a card, «Rep. Argentina / Prov. Tucumán / XII.1906 / C. Bruch» print., date handwr.; «Cotypus» print. on pale green paper; «Spaeth det.» print.; «Chelymorpha / Reimoseri / Sph.» handwr. by Bruch, red frame; «Chelymorph [print.] / Reimoseri / cotyp! [handwr.]», cut. *Ex BRC*.

Note: Tucumán was not mentioned in the original description, and no reference was made to specimens from **BRC**.

seriatopunctata [*Odontionycha*]. Spaeth 1901: 578-579. Paraguay; Brasil: Bahia.

Two **spec.** on cards, but originally pinned. One of them «Rep. Argentina / Gob. Misiones / 4.II.1896 / C. Bruch» print., date handwr.; «Typus» print. on pale green paper; «Cassida / seriatopctt. / Sph» handwr. by Bruch, red frame; «Cassida [print.] / seriatopctta. m. [handwr.]» cut. The other «Rep. Argentina / Gob. Misiones / 190_ / C. Bruch» print.; «Cotypus» print. on pale green paper; «Philaspis / seriatopctt. / Spaeth» handwr. by Bruch, green frame; «Cassida [printed] / seriatopctta m. [handwr.]», cut. *Ex BRC*.

Note: Misiones Prov. was not mentioned in the original description. Moreover the second spec. bears a label with green frame, used by Bruch only much later. Both spec. seem to have been identified by Spaeth, who recorded the species under *Philaspis* (Spaeth 1914: 123).

uhmanni [*Sternostena laeta* ab.]. Monrós & Viana 1947: 198, pl. xi: 34. **Cotypes** in **MACN, MVC, MC** from the same localities as the typical form, [Buenos Aires Prov.:] Tandil, Rosas, Las Flores, Gorchs; [Mendoza Prov.:] Mendoza; Uruguay; Perú.

One **spec.** «Tandil» handwr. by Bruch, «Col. / C. Bruch» print.; «50937» handwr., red frame, «Sternostena / laeta Ws.» handwr., cut. 1 **spec.** «B.-A. C. / Girado» handwr., «Col. / A. Breyer» print., «51119» handwr., red frame. 2 **spec.** on 1 pin «Lincoln B.-A. / C. Girado» handwr., «Col. / A. Breyer» print., «51118» handwr., red frame. 21 **spec.** on 13 pins «Rosas. F.C. Sud / Provincia de Buenos Aires / Juan B. Daguerre» print., «50938» on 6, «26907» on 3, «24574» on 4" handwr., red frame., 1 of them «Foto» handwr. on pale green paper, and «Sternostena / laeta / Ws. var. [handwr. by Bruch] / C. Bruch determ. [print.]» on white paper, black frame, 1 of them «Dibujado» [drawn], almost all with «Col. / C. Bruch» print.. 1 **spec.** «Argentina / Bs. Aires» print., «30565» handwr., red frame. 3 **spec.** «Bs. Aires / Argentina / Las Flores / J.B. Daguerre» print., locality handwr., «51208» handwr., red frame. 6 **spec.** on 5 pins «Buenos Aires / Argentina / Tandil VI-1937 / M.J. Viana» print., date handwr. «41240 [on 5, 51117 on 1]» handwr., red frame. All «Cotypus» print. on red cardboard, and «Sternostena / laeta / ab: uhmanni / Monros-Viana / Cotipo [handwr.] / Museo Argentino de Ciencias Naturales [print.]» on red cardboard.

Note: The name is not available, as it was published as an *aberratio*.

vigintinotatus [*Oedionychis*]. Jacoby 1894: 627-628, pl.xxxviii: 10. Brasil: Rio Grande, seemingly a single spec., as only one measure is given.

One **spec.** «Rep. Argentina / Prov. Buenos Aires / 19.XI.1904 / C. Bruch» print., date handwr. «Cotypus» handwr. by Bruch on pale green paper, «Oedionychis / 20-notata / Jac.» handwr. by Bruch, red frame, «Oedionychis / 20-notata Jac.» handwr., cut.

Note: The spec. was taken after the publication date. Recorded as *Oedionychus vigintinotatus* by Blackwelder (1946: 713).
